

SHEET METAL WORKER INFORMATION SHEET 2023

Employers, journeypersons and instructors play a key role in the success of apprenticeship in Newfoundland and Labrador. By working collaboratively with government, stakeholders support the apprenticeship system in the development of a highly skilled workforce.

To receive a Red Seal endorsement, apprentices must pass the Red Seal examination. In 2022, Newfoundland and Labrador's Red Seal exam pass rate for the Sheet Metal Worker trade was 80 per cent. This is above the 2022 national average of 63 per cent. As supervising journeypersons and instructors, you are integral in helping train and prepare apprentices to write the Red Seal exam. Apprentices should be exposed to, have the ability to practice, and be able to explain how to complete all skills in the logbook; this will assist them in being successful in their Red Seal exam.

Given the broad scope of the trade, it can be difficult to know where to focus to prepare apprentices. To help inform your training plan with the apprentice, the Apprenticeship and Trades Certification Division (ATCD) has identified a list of five lower performing tasks demonstrated by Newfoundland and Labrador apprentices on the Red Seal exam for your trade*. We encourage you to review the list below with apprentices. Details on these tasks can be found in the national occupational standard for your trade – the Red Seal Occupational Standard (RSOS): [Red Seal Occupational Standard - Sheet Metal Worker](#)

Task/Sub-Task	Description	Number of Questions on RS Exam (out of 120)	RSOS Page Number
Task A-4	Uses communication and mentoring techniques.	3 questions	Pg. 48
A-4.01	Uses communication techniques.		
A-4.02	Uses mentoring techniques.		
Task B-7	Fabricates flashing, roofing, sheeting and cladding.	3 questions	Pg. 71
B-7.01	Cuts metal for flashing, roofing, sheeting and cladding.		
B-7.02	Forms flashing, roofing, sheeting and cladding.		
Task B-8	Fabricates specialty products.	6 questions	Pg. 74
B-8.01	Cuts material for specialty products.		
B-8.02	Forms specialty products.		
B-8.03	Assembles specialty products.		
B-8.04	Finishes specialty products.		
Task C-12	Installs material handling system components.	5 questions	Pg. 109
C-12.01	Installs pneumatic and gravity material handling system components.		
C-12.02	Installs mechanized material handling system components.		
Task C-13	Applies thermal insulation, lagging, cladding and flashing.	3 questions	Pg. 113
C-13.01	Applies thermal insulation to components.		
C-13.02	Applies lagging and cladding to components.		

Task/Sub-Task	Description	Number of Questions on RS Exam (out of 120)	RSOS Page Number
C-13.03	Applies flashing to components.		

**The information above represents the last three years where Red Seal exam data is available (May 2020 – May 2023).*

For additional resources to assist apprentices (e.g., Self-Assessment Guide, Red Seal Practice Questions, etc.), please visit the **Trade Profile** section on the ATCD website: www.gov.nl.ca/atcd/designated-trades/trade-profiles/

ATCD would like to thank you for your contribution towards apprenticeship training and investing in the future of skilled trades in Newfoundland and Labrador.
