

<b>Operating Area Name: Budgells Pond</b>	<b>Operating Area #CC08001</b>
<b>NFS Inventory Map #:</b>	<b>NTS Map #:2E/06</b>

**Description of Area:**

Located in the north western tip of the district, near the communities of Glovers Harbour and Leading Tickles. North Shore Forest.

---

**Harvesting Activities:**

Manual or mechanical harvesting with extraction by forwarder, ATV or snowmobile

Inventory Softwood Volume: 44842m<sup>3</sup>

Inventory Hardwood Volume: NA m<sup>3</sup>

Proposed Softwood Volume: 44842 m<sup>3</sup>

Proposed Hardwood Volume: 37498m<sup>3</sup>

Difference from Inventory to Proposed Volume: %

Rationale for Difference: Inventory / blocking adjustment from woodsupply calculations and operational criteria of age class 4 and greater with minimal 60 m<sup>3</sup>/ha and greater

---

**Silviculture Activities:**

Reconnaissance surveys will be carried out on areas harvested and regenerating stands to determine the need for planting and/or thinning. Suitable cutovers that are not satisfactorily regenerated will be candidates for site preparation and/or planting and/or gap planting and suitable regenerating stands will be candidates for thinning.

---

**Primary Forest Access Road Construct**

Road Construction 5389 m

3 stream crossings

**Non timber Considerations and Mitigations:**

<b>Operating Area Name: Snake Lake</b>	<b>Operating Area #CC08002</b>
<b>NFS Inventory Map #:</b>	<b>NTS Map #:2E/05</b>

**Description of Area:**

Located in the farthest western part of the district touching Seal Bay. North Shore Forest.

---

**Harvesting Activities:**

Manual or mechanical harvesting with extraction by forwarder, ATV or snowmobile

Inventory Softwood Volume: 80341m<sup>3</sup>

Inventory Hardwood Volume: NA m<sup>3</sup>

Proposed Softwood Volume: 47969 m<sup>3</sup>

Proposed Hardwood Volume: 7057m<sup>3</sup>

Difference from Inventory to Proposed Volume: Inventory Adjustment%

Rationale for Difference: Inventory / blocking adjustment from woodsupply calculations and operational criteria of age class 4 and greater with minimal 60 m<sup>3</sup>/ha and greater

---

**Silviculture Activities:**

Reconnaissance surveys will be carried out on areas harvested and regenerating stands to determine the need for planting and/or thinning. Suitable cutovers that are not satisfactorily regenerated will be candidates for site preparation and/or planting and/or gap planting and suitable regenerating stands will be candidates for thinning.

---

**Primary Forest Access Road Construct**

Road Construction 10435 m

8 stream crossings

**Non timber Considerations and Mitigations:**

Special considerations/area adjustments have been made for primary caribou areas.

<b>Operating Area Name: Southern Lake</b>	<b>Operating Area #CC08003</b>
<b>NFS Inventory Map #:</b>	<b>NTS Map #:2E/05</b>

**Description of Area:**

Located in the very most Southwestern part of the district bordering Seal Bay Brook and District 10. North Shore Forest/Central Newfoundland Forrest.

---

**Harvesting Activities:**

Manual or mechanical harvesting with extraction by forwarder, ATV or snowmobile

Inventory Softwood Volume: 19791m<sup>3</sup>

Inventory Hardwood Volume: NA m<sup>3</sup>

Proposed Softwood Volume: 8544 m<sup>3</sup>

Proposed Hardwood Volume: 1104m<sup>3</sup>

Difference from Inventory to Proposed Volume: Inventory Adjustment%

Rationale for Difference: Inventory / blocking adjustment from woodsupply calculations and operational criteria of age class 4 and greater with minimal 60 m<sup>3</sup>/ha and greater

---

**Silviculture Activities:**

Reconnaissance surveys will be carried out on areas harvested and regenerating stands to determine the need for planting and/or thinning. Suitable cutovers that are not satisfactorily regenerated will be candidates for site preparation and/or planting and/or gap planting and suitable regenerating stands will be candidates for thinning.

---

**Primary Forest Access Road Construct**

Road Construction 735 m

1 stream crossings

**Non timber Considerations and Mitigations:**

Special considerations/area adjustments have been made for primary caribou areas.

<b>Operating Area Name: Osmonton Arm</b>	<b>Operating Area #CC08004</b>
<b>NFS Inventory Map #:</b>	<b>NTS Map #:2E/06</b>

**Description of Area:**

Located in the western part of the district just south of Osmonton Arm and north of Southwest Arm. North Shore Forest.

---

**Harvesting Activities:**

Manual or mechanical harvesting with extraction by forwarder, ATV or snowmobile

Inventory Softwood Volume: 128718m<sup>3</sup>

Inventory Hardwood Volume: NA m<sup>3</sup>

Proposed Softwood Volume: 63159 m<sup>3</sup>

Proposed Hardwood Volume: 13041m<sup>3</sup>

Difference from Inventory to Proposed Volume: Inventory Adjustment%

Rationale for Difference: Inventory / blocking adjustment from woodsupply calculations and operational criteria of age class 4 and greater with minimal 60 m<sup>3</sup>/ha and greater

---

**Silviculture Activities:**

Reconnaissance surveys will be carried out on areas harvested and regenerating stands to determine the need for planting and/or thinning. Suitable cutovers that are not satisfactorily regenerated will be candidates for site preparation and/or planting and/or gap planting and suitable regenerating stands will be candidates for thinning.

---

**Primary Forest Access Road Construct**

Road Construction 14419 m

0 stream crossings

**Non timber Considerations and Mitigations:**

<b>Operating Area Name: Askel Lake</b>	<b>Operating Area #CC08005</b>
<b>NFS Inventory Map #:</b>	<b>NTS Map #:2E/06</b>

**Description of Area:**

Located in the western part of the district west of the community of Point Leamington and bordering Western Arm Brook. North Shore Forest/Central Newfoundland Forrest.

---

**Harvesting Activities:**

Manual or mechanical harvesting with extraction by forwarder, ATV or snowmobile

Inventory Softwood Volume: 22086m<sup>3</sup>

Inventory Hardwood Volume: NA m<sup>3</sup>

Proposed Softwood Volume: 18949 m<sup>3</sup>

Proposed Hardwood Volume: 14252m<sup>3</sup>

Difference from Inventory to Proposed Volume: Inventory Adjustment%

Rationale for Difference: Inventory / blocking adjustment from woodsupply calculations and operational criteria of age class 4 and greater with minimal 60 m<sup>3</sup>/ha and greater

---

**Silviculture Activities:**

Reconnaissance surveys will be carried out on areas harvested and regenerating stands to determine the need for planting and/or thinning. Suitable cutovers that are not satisfactorily regenerated will be candidates for site preparation and/or planting and/or gap planting and suitable regenerating stands will be candidates for thinning.

---

**Primary Forest Access Road Construct**

Road Construction 6056 m

3 stream crossings

**Non timber Considerations and Mitigations:**

Special considerations/area adjustments have been made for primary caribou areas.

<b>Operating Area Name: West Arm</b>	<b>Operating Area #CC08006</b>
<b>NFS Inventory Map #:</b>	<b>NTS Map #:2E/06</b>

**Description of Area:**

Located in the western part of the district north of the community of Point Leamington. North Shore Forest

---

**Harvesting Activities:**

Manual or mechanical harvesting with extraction by forwarder, ATV or snowmobile

Inventory Softwood Volume: 4119m<sup>3</sup>

Inventory Hardwood Volume: NA m<sup>3</sup>

Proposed Softwood Volume: 2468 m<sup>3</sup>

Proposed Hardwood Volume: 1600m<sup>3</sup>

Difference from Inventory to Proposed Volume: Inventory Adjustment%

Rationale for Difference: Inventory / blocking adjustment from woodsupply calculations and operational criteria of age class 4 and greater with minimal 60 m<sup>3</sup>/ha and greater

---

**Silviculture Activities:**

Reconnaissance surveys will be carried out on areas harvested and regenerating stands to determine the need for planting and/or thinning. Suitable cutovers that are not satisfactorily regenerated will be candidates for site preparation and/or planting and/or gap planting and suitable regenerating stands will be candidates for thinning.

---

**Primary Forest Access Road Construct**

Road Construction 904 m

0 stream crossings

**Non timber Considerations and Mitigations:**

<b>Operating Area Name: Big Lake</b>	<b>Operating Area #CC08007</b>
<b>NFS Inventory Map #:</b>	<b>NTS Map #:2E/06</b>

**Description of Area:**

Located in the western part of the district directly south of the community of Point Leamington and bordering New Bay River. Central Newfoundland Forest/North Shore Forest.

---

**Harvesting Activities:**

Manual or mechanical harvesting with extraction by forwarder, ATV or snowmobile

Inventory Softwood Volume: 10882m<sup>3</sup>

Inventory Hardwood Volume: NA m<sup>3</sup>

Proposed Softwood Volume: 4855 m<sup>3</sup>

Proposed Hardwood Volume: 919m<sup>3</sup>

Difference from Inventory to Proposed Volume: Inventory Adjustment%

Rationale for Difference: Inventory / blocking adjustment from woodsupply calculations and operational criteria of age class 4 and greater with minimal 60 m<sup>3</sup>/ha and greater

---

**Silviculture Activities:**

Reconnaissance surveys will be carried out on areas harvested and regenerating stands to determine the need for planting and/or thinning. Suitable cutovers that are not satisfactorily regenerated will be candidates for site preparation and/or planting and/or gap planting and suitable regenerating stands will be candidates for thinning.

---

**Primary Forest Access Road Construct**

Road Construction None m

0 stream crossings

**Non timber Considerations and Mitigations:**

<b>Operating Area Name: Diver Pond</b>	<b>Operating Area #CC08009</b>
<b>NFS Inventory Map #:</b>	<b>NTS Map #:2E/06</b>

**Description of Area:**

Located in the western part of the district between Point Leamington and Glovers Harbour and bordering Charles Brook. North Shore Forest.

---

**Harvesting Activities:**

Manual or mechanical harvesting with extraction by forwarder, ATV or snowmobile

Inventory Softwood Volume: 110085m<sup>3</sup>

Inventory Hardwood Volume: NA m<sup>3</sup>

Proposed Softwood Volume: 98772 m<sup>3</sup>

Proposed Hardwood Volume: 54728m<sup>3</sup>

Difference from Inventory to Proposed Volume: Inventory Adjustment%

Rationale for Difference: Inventory / blocking adjustment from woodsupply calculations and operational criteria of age class 4 and greater with minimal 60 m<sup>3</sup>/ha and greater

---

**Silviculture Activities:**

Reconnaissance surveys will be carried out on areas harvested and regenerating stands to determine the need for planting and/or thinning. Suitable cutovers that are not satisfactorily regenerated will be candidates for site preparation and/or planting and/or gap planting and suitable regenerating stands will be candidates for thinning.

---

**Primary Forest Access Road Construct**

Road Construction 25505 m

6 stream crossings

**Non timber Considerations and Mitigations:**

<b>Operating Area Name: Winter Tickle</b>	<b>Operating Area #CC08010</b>
<b>NFS Inventory Map #:</b>	<b>NTS Map #:2E/06</b>

**Description of Area:**

Located in the western part of the district in the South Arm/New Bay area. On the west side of the road to Fortune Harbour. North Shore Forest.

---

**Harvesting Activities:**

Manual or mechanical harvesting with extraction by forwarder, ATV or snowmobile

Inventory Softwood Volume: 99343m<sup>3</sup>

Inventory Hardwood Volume: NA m<sup>3</sup>

Proposed Softwood Volume: 86028 m<sup>3</sup>

Proposed Hardwood Volume: 15888m<sup>3</sup>

Difference from Inventory to Proposed Volume: Inventory Adjustment%

Rationale for Difference: Inventory / blocking adjustment from woodsupply calculations and operational criteria of age class 4 and greater with minimal 60 m<sup>3</sup>/ha and greater

---

**Silviculture Activities:**

Reconnaissance surveys will be carried out on areas harvested and regenerating stands to determine the need for planting and/or thinning. Suitable cutovers that are not satisfactorily regenerated will be candidates for site preparation and/or planting and/or gap planting and suitable regenerating stands will be candidates for thinning.

---

<b>NFS Inventory Map #:</b>	<b>NTS Map #:2E/02-2E/04</b>

**Description of Area:**

Located in the central part of the district on Loon Bay Acc. Rd. The area is bordered by Southest Pond, Dildo Pond & Long Pond. \*\*\*\*Area may require road upgrading. Loon Bay PPWSA. North Shore Forest & Central Newfoundland Forest.

---

**Harvesting Activities:**

Manual or mechanical harvesting with extraction by forwarder, ATV or snowmobile

Inventory Softwood Volume: 57704m<sup>3</sup>

Inventory Hardwood Volume: NA m<sup>3</sup>

Proposed Softwood Volume: 11830 m<sup>3</sup>

Proposed Hardwood Volume: 6604m<sup>3</sup>

Difference from Inventory to Proposed Volume: Inventory Adjustment%

Rationale for Difference: Inventory / blocking adjustment from woodsupply calculations and operational criteria of age class 4 and greater with minimal 60 m<sup>3</sup>/ha and greater

---

**Silviculture Activities:**

Reconnaissance surveys will be carried out on areas harvested and regenerating stands to determine the need for planting and/or thinning. Suitable cutovers that are not satisfactorily regenerated will be candidates for site preparation and/or planting and/or gap planting and suitable regenerating stands will be candidates for thinning.

---
