**Report on Caribou Monitoring Program
Lac Harris Area July to September 2007**

REPORT on Caribou Monitoring Program
Lac Harris Area
July to September 2007

As a result of meetings with NIMLJ and NNK, New Millennium Capital Corp. ("NML") set up a joint monitoring program for caribou movements near Lac Harris, the site of the summer and fall drilling program. A member of each Nation was present for the surveys, which took the form of a weekly helicopter overflight of the area surrounding lac Harris.

The reports of both sightings by NML's personnel from July to October and the results of the helicopter overflight follow.

CARIBOU SIGHTINGS

by Project Personnel in course of normal duties

| Date | Area | How Many | Person | Comments |
|-----------|-------------------------|----------|-------------------------|--|
| 28-Jul-07 | Timmins Mine | 1 | Stephanie Anderson | Spotted while doing field work. |
| 11-Aug-07 | Road to Goodwood | 1 | Henry Simpson/Roy Logan | On route to camp, four-wheeler was passed carrying a dead caribou. |
| 15-Aug-07 | Crossing Gillespie Lake | 5 | Michael - Heli-Boreal | Spotted while flying to drill site. |
| 18-Aug-07 | Road to Goodwood | 1 | Donna/Tammy/Roy | On route to camp, four-wheeler was passed carrying a dead caribou. |
| 23-Aug-07 | Goodwood | 8 | Roy/David/Joe/George | Spotted by survey group 7km northeast of camp. |
| 24-Aug-07 | Goodwood | 1 | Sylvia | Camp cook watched one on ridge behind camp (Goodwood). |
| 15-Oct-07 | Camp | 3 | Drill Crew | Camp area. |
| 16-Oct-07 | Goodwood | 8 | Serge - Heli-Boreal | On route to camp to drill. |
| 19-Oct-07 | Harris Lake | 5 | Blaine Pullen | While flying to drill site. |

CARIBOU SURVEY 1

| INNU REPRESENTATIVE: | Joe Dominique |
| TRANSLATOR: | George Guanish |
| NML REPRESENTATIVE: | Roy Logan |

CARIBOU SIGHTED: Group of 8 animals, 7km northeast of campsite

COMMENTS:

We flew north over our drill camp then across Harris Lake so the First-Nation representatives could see our drills. They were able to see for themselves that we only had two drills and they appeared quite small. The drills were enclosed in their shacks and I explained how quiet they were.

We then flew east and began to cover an area with a radius of approximately 15 km. This took us north to Caribou Lake then east to the Swampy Bay River, then in a crisscross pattern as we worked south. We did spot a small group of caribou (8) approximately 7 km northeast of our camp.

CARIBOU SURVEY 2

DATE: August 31, 2007

NASKAPI REPRESENTATIVE: David Swappie Sr.

NASKAPI REPRESENTATIVE:

David Swappie Jr.

NML REPRESENTATIVE: Donna O'Quinn

NML REPRESENTATIVE: Roy Logan

CARIBOU SIGHTED: One Caribou 6.4km northeast of camp

COMMENTS: We flew north towards camp, continuing north to Caribou Lake, east to Lac La Fleur, then in a zigzag pattern back towards Schefferville. No representative from the NIMLJ was available for this flight.

CARIBOU SURVEY 3

DATE: September 12, 2007

NASKAPI REPRESENTATIVE: David Swappie

INNU REPRESENTATIVE: Joe Pinette

TRANSLATOR: George Guanish

NML REPRESENTATIVE: Roy Logan

CARIBOU SIGHTED: 0

COMMENTS: Flew to Lac La Fleur, Swampy Bay, Caribou Lake, camp area and then Leroy Lake. There were no sightings of Caribou. September 12, 2007 was the final flight, given that no caribou were sighted. It was agreed to resume the flights should caribou return to the area, but that proved not to be the case.

**REPORT ON CARIBOU MONITORING PROGRAM
LAC HARRIS AND SURROUNDING AREAS
AUGUST AND SEPTEMBER 2008**

In 2007 NIMLJ and NNK with New Millennium Capital Corp. ("NML") set a joint program to monitor the movement of caribou in and around the Lac Harris area. As a result of that agreement the program was continued in 2008.

Over flights, in the form of helicopter and Beaver with representatives from both Nations and NML toured Lac Harris and surrounding areas. Due to the late caribou movement in the area only three tours were completed with no sightings of caribou.
