Dear Mr. Johnson:

RE: Burin Microbrewery – Registration 1920

Your proposal has been reviewed by an interdepartmental screening committee and an opportunity to comment has been provided to the public as required by the Newfoundland and Labrador *Environmental Protection Act*, SNL 2002, cE-14.2. Please be advised that this undertaking is **released** from further environmental assessment.

The Department of ServiceNL requires that you apply for and obtain electrical, water and sewer, building accessibility and fire and life safety approvals. A Food Establishment Licence and a development permit will also be required. For further information, please contact Service NL at (709) 466-4060.

The Water Resources Management Division advises that you must apply for and obtain a Permit for Constructing a Non-Domestic Well under Section 58 of the *Water Resources Act*, 2002, prior to the start of construction. In the instance where there is an existing well, a permit is still required in order to assess the capacity and quality of the groundwater and to ensure there is adequate water of good quality for the intended use. In addition, you must also obtain a water use licence. For more information please contact Ms. Dorothea Hanchar, Manager of Groundwater Section at (709) 729-2539.

Although the undertaking, as proposed, is released from further environmental assessment, it is still subject to other legislative requirements. A detailed summary of the comments received from government agencies during the review is attached to provide an indication of likely applicable permits, approvals and legislative requirements.
