Dear Kathleen Fillier:

RE: Gander to Gambo Transmission Line 146L Rebuild (the Project) Waste Management Plan

On October 12, 2023, the Project was released from environmental assessment, subject to conditions. One of the conditions required Newfoundland Power Inc. to submit a Waste Management Plan (WMP) prior to commencing Project construction.

On March 20, 2024, Newfoundland Power Inc. submitted a WMP to the Pollution Prevention Division of this department. I am advising you that this plan has been reviewed and approved.

You must abide by all commitments made in the WMP and in all environmental assessment submissions. You must also comply with all terms and conditions of the October 12, 2023, decision letter. Any significant change to the WMP or to the Project must be submitted to this department prior to construction, to be reviewed for regulatory requirements including environmental assessment.

If you have any questions concerning these matters, please contact Joanne Sweeney, Director of the Environmental Assessment Division, at (709) 729-0673 or e-mail joannesweeney@gov.nl.ca.

Sincerely,

HON. LISA DEMPSTER, MHA
District of Cartwright – L'Anse au Clair
Minister
