Dear Shannon Lewis:

RE: South Brook Quarry (the Project) Conditions of Release

On May 21, 2020, the Project was released from environmental assessment, subject to conditions. Two of the conditions of release required Shoreline Aggregates Inc. to enter into a Memorandum of Agreement with the Water Resources Management Division (WRMD) of this department for the installation of a real time water monitoring station and to submit a Geotechnical Report.

On May 15, 2025, WRMD installed a real-time water monitoring station in South Brook and results of this monitoring would be reviewed to determine if the monitoring station will be required in 2026. I am advising you that no further real-time water monitoring stations will be required for the Project.

On April 29, 2025, Shoreline Aggregates Inc. submitted a Geotechnical Report to the WRMD. I am advising you that the Geotechnical Report has been reviewed and accepted.

You must abide by all commitments made in all environmental assessment submissions. You must also comply with all terms and conditions of the May 21, 2020, decision letter. Any significant change to the Project must be submitted to this department prior to construction, to be reviewed for regulatory requirements including environmental assessment.

If you have any questions concerning these matters, please contact Joanne Sweeney, Director of the Environmental Assessment Division, at (709) 729-0673 or e-mail at joannesweeney@gov.nl.ca.

Sincerely,

A blue ink signature of Chris Tibbs, MHA.
