June 1997

LIST OF APPENDICES

- A Climate Stations in Labrador
- B Select Climate Stations in Quebec
- C Mean Monthly Temperatures in Labrador
- D Mean Monthly Melting Degree-days in Labrador
- E Mean Monthly Precipitation in Labrador
- F Mean Monthly Rainfall or Snowfall in Labrador
- G Mean Month-end Snow Cover in Labrador
- H Streamflow Gauging Stations in Quebec which may be Used to Model Hydrology in Labrador
- I Map Showing Locations of Streamflow Gauging Stations
- J Annual Hydrographs of Daily Streamflows in Labrador
- K Annual Distribution of Mean Monthly Runoff in Labrador
- L Seasonal Flows in Labrador
- M Timing of Streamflow Extremes
- N Annual Maximum instantaneous Discharges
- O Single Station Frequency Analysis
- P Low Flows
- Q Recession Characteristics
- R Annual Graphs of Daily Streamflow and Climatic Data for Select Watersheds in Labrador
- S Plots of Hydrologic and Climatic Parameters
