Foldable Greeting Card Gift Boxes

Fold 2

Fold 1

Fold 3

Fold 5
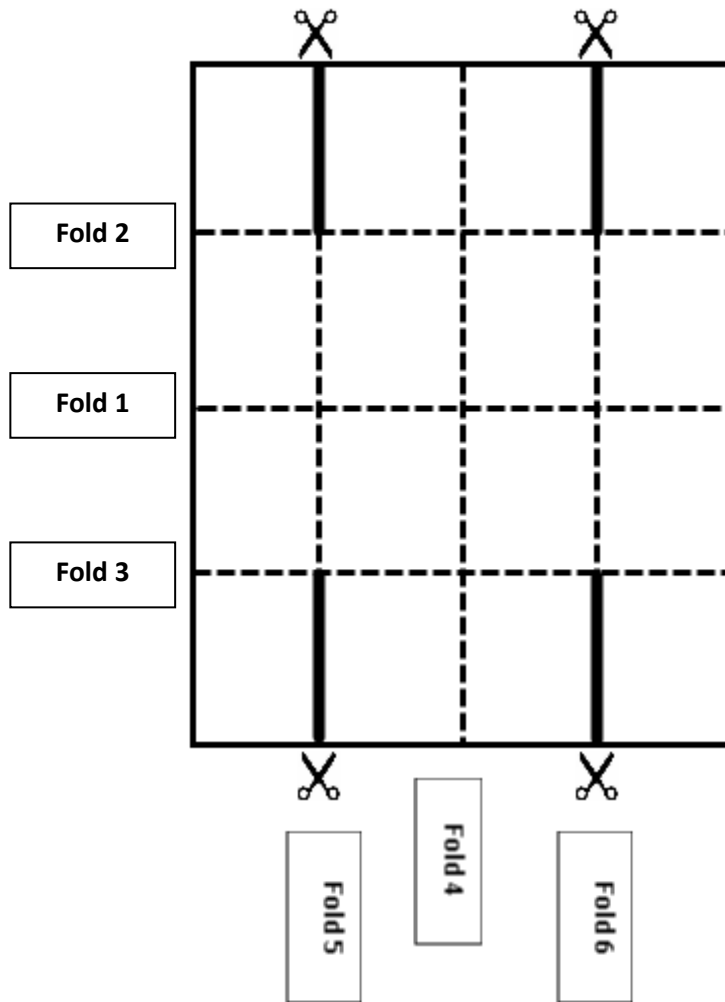

Fold 4

Fold 6

Instructions:

Students should each have a greeting card.

Step 1: Cut their cards into two pieces the front and back of the card

Step 2: Fold your card in half to make fold 1. Fold it in half again to make fold 2 & 3.

Step 3: Open your card and lay it flat. Fold the card in half perpendicular to your first fold to make fold 4. Fold it in half again to make folds 5 & 6.

Step 4: Cut the card along the four solid lines on the diagram.

Step 5: With the card laying flat on the table (pattern down) exactly as shown in the diagram, cuts on top and bottom.   Fold the left and right sides to make a 90° angle with the base.

Step 6: Fold in the cut tabs then fold up the remaining piece over the cut tabs and fold the excess inside the box. If there is no excess use tape to hold together. Repeat for the other end.

Step 7: Repeat steps 1 – 6 for the bottom of the box. NOTE: For the bottom portion of the box your cuts can go in 2 mm further than the top.
