

# **Bachelor's Degrees- General**

## What were the labour market experiences of graduates?

**Table 1** shows the employment status of this program's graduates during the reference week June 20-26, 1999.

Compared to all undergraduate degrees at Memorial, a similar percentage of this program's graduates were employed full-time in the reference week.

**Table 2** shows the weekly earnings of this program's graduates who obtained full-time employment during the reference week.

Compared to all undergraduate degrees at Memorial, a lower proportion of this program's graduates reported a salary in excess of \$560 a week.

**Table 3** shows whether the graduates of this program who had attained full-time employment in the reference week considered their work related to their training.

Compared to all undergraduate degrees at Memorial, a lower proportion of this program's graduates considered their job directly related to their training.

**Table 1: Employment status during reference week**

	<b>This Program</b>	<b>All Undergraduate</b>
<b>Status</b>	Number	Percentage
Employed Full-Time	7	58.3
Employed Part-Time	0	0.0

## How long did it take to get the first full-time job?

**Table 8** shows the length of time this program's graduates took to find a full-time job.

Compared to all undergraduate degrees at Memorial, a lower percentage of this program's graduates reported either finding a full-time job before graduation or finding a full-time job within 3 months of graduating.

**Table 8: Length of Job Search**

	<b>This Program</b>	<b>All Undergraduate</b>
<b>Status</b>	Percentage	Percentage
Job Before Graduation	16.7	30.8
3 Months or Less	66.7	59.3
4 to 6 Months	16.7	5.3
7 or More Months	0.0	4.7

## How much did graduates owe after graduation?

**Table 9** shows the percentage of this program's graduates who reported having government student loans and the average amount of their loans.

Compared to all undergraduate degrees at Memorial, a higher percentage of this program's graduates had a government student loan and their average loan amount was higher.

**Table 9: Government Student Loans**

	<b>This Program</b>	<b>All Undergraduate</b>
	Percentage	Percentage
Percentage of students with no loan	21.4	37.5
Percentage of students with loans	78.6	62.5
Average Loan in dollars	\$42,091	\$25,549

## What were the labour market experiences of graduates?

**Table 1** shows the employment status of this program's graduates during the reference week June 20-26, 1999.

Compared to all undergraduate degrees at Memorial, a lower percentage of this program's graduates were employed full-time in the reference week.

**Table 2** shows the weekly earnings of this program's graduates who obtained full-time employment during the reference week.

Compared to all undergraduate degrees at Memorial, a lower proportion of this program's graduates reported a salary in excess of \$560 a week.

**Table 3** shows whether the graduates of this program who had attained full-time employment in the reference week considered their work related to their training.

Compared to all undergraduate degrees at Memorial, a lower proportion of this program's graduates considered their job directly related to their training.

## What were the labour market experiences of graduates?

**Table 1** shows the employment status of this program's graduates during the reference week June 20-26, 1999.

Compared to all undergraduate degrees at Memorial, a higher percentage of this program's graduates were employed full-time in the reference week.

**Table 2** shows the weekly earnings of this program's graduates who obtained full-time employment during the reference week.

Compared to all undergraduate degrees at Memorial, a higher proportion of this program's graduates reported a salary in excess of \$560 a week.

**Table 3** shows whether the graduates of this program who had attained full-time employment in the reference week considered their work related to their training.

Compared to all undergraduate degrees at Memorial, a higher proportion of this program's graduates considered their job directly related to their training.

**Table 1: Employment status during reference week**

	<b>This Program</b>	<b>All Undergraduate</b>	
<b>Status</b>	Number	Percentage	Percentage
Employed Full-Time	22	75.9	61.0

## What were the labour market experiences of graduates?

**Table 1** shows the employment status of this program's graduates during the reference week June 20-26, 1999.

Compared to all undergraduate degrees at Memorial, a higher percentage of this program's graduates were employed full-time in the reference week.

**Table 2** shows the weekly earnings of this program's graduates who obtained full-time employment during the reference week.

Compared to all undergraduate degrees at Memorial, a higher proportion of this program's graduates reported a salary in excess of \$560 a week.

**Table 3** shows whether the graduates of this program who had attained full-time employment in the reference week considered their work related to their training.

Compared to all undergraduate degrees at Memorial, a higher proportion of this program's graduates considered their job directly related to their training.

**Table 1: Employment status during reference week**

	<b>This Program</b>	<b>All Undergraduate</b>	
<b>Status</b>	Number	Percentage	Percentage
