Research and Analysis:

Gerald Galway  
Geoff Newman  
Charlotte Strong

Document Design and Graphics:

Ros O'Leary

Project Manager:

Gerald Galway

Divisional Director:

Harold Press

Many people within and outside the Department of Education made a contribution to the development of this document. Their efforts are acknowledged and appreciated. The authors wish to acknowledge Dot Eustace, Gerard Fardy, Paul Green, Dolores Hynes and Theresa Walsh at HRDC; Deanne Aylward, Robert Bugler, Dawn Jordan, Terry Quinlan, Hugh Ridler and Craig Wiseman at the Newfoundland Statistics Agency; Jim Warren at Human Resources and Employment; Jim Forward at the College of the North Atlantic; and Kevin Clarke at Memorial University.

The work of the Department of Education staff, who collect and compile a range of information on the education system, is gratefully acknowledged. Special thanks are extended to Rosemary Boyd, Lynn Bryant, Janice Fleming, Gail Ivany, Ann Kinnie and Kerry Pope.

Because databases are periodically updated, the enrolment totals for the public and private colleges may differ slightly from other documents published by the Department of Education. Differences, where they exist, reflect a slight redistribution of some students' assigned program types. For academic years up to 1994/95, the analysis in the document was based on data as of May 7, 1997. For 1995/96, the analysis was based on the data as of December 10, 1997.

Intensive efforts were made to corroborate, among stakeholders, the interpretation of certain data. It is acknowledged, however, that alternate explanations may be suggested.
