

Onshore Cuttings and Core

During petroleum exploration and development drilling in the onshore area of the Province, operators are required to obtain sufficient samples to ensure that a comprehensive geological and reservoir evaluation can be made. The following is a summary of the cuttings and cores maintained and currently available for examination by the Department of Industry, Energy and Technology.

Well Number	Well Name	Cuttings Available?	Core Available?
1	Port au Port #1	x	
2	Flat Bay Test Hole #1		x
3	York Harbour WW #1		
4	York Harbour #1		x
5	Lark Harbour WW #2	x	
6	Little Port WW #3		
7	Big Spring #1		x
8	Flat Bay #1		
9	Western Adventure #1		x
10	Flat Bay #93-101 #1		x
11	Port au Port #2	x	
12	Port au Port #3		
13	Port au Port #1 ST #1	x	
14	Indian Head #1		
15	Captain Cook #1		x
16	Western Adventure #2		x
17	Port au Port #1 ST #2	x	
18	Parsons Pond #1		x
19	Flat Bay #2	x	
20	Storm #1	x	
21	Flat Bay #3	x	
22	Hurricane #1 (Backstretch #2)	x	
23	Hurricane #2 (Whip #1)	x	
23	Hurricane #2 Re-entry	x	
24	Flat Bay #5	x	
25	Red Brook #1		
26	Port au Port #1 ST #3	x	
27	Flat Bay Test Hole #2		x
28	Flat Bay Test Hole #3		x
29	Robinsons #1	x	x
30	Red Brook #2	x	x
31	Werner Hatch #1		x
32	Seamus #1	x	
33	Finnegan #1	x	
34	Flat Bay Test Hole #7		x

35	Flat Bay Test Hole #6		x
36	Flat Bay Test Hole #4		x
37	Flat Bay Test Hole #8		x
38	Flat Bay Test Hole #5		x
39	Flat Bay Test Hole #9		x
40	Gobineau #1	x	x
Year Drilled			
1991	BHP WN-91-CHA, CHA1, CH2, CH3		x
1973	Union Brinex Anguille H-98		
1966	Nalco I-65	x	
1965	Golden Eagle Shoal Point #2	x	x
1965	Golden Eagle Shoal Point #1	x	x
