TERRAIN SCIENCES

1. **M. Batterson and D. Liverman** Contrasting styles of glacial dispersal in Newfoundland and Labrador: Methods and case studies. 1
2. **M. Batterson and K. Sheppard** Deglacial history of northern St. George's Bay, western Newfoundland. 33
3. **N. Catto, H. Griffiths, S. Jones and H. Porter** Late Holocene sea-level changes, eastern Newfoundland. 49
4. **D. Taylor and D. Liverman** Till geochemistry in the Hodges Hill area. 61

GEOGRAPHIC INFORMATION SYSTEMS

5. **S.P. Colman-Sadd** *GeoSymbol*: Upgrade to accommodate multiple UTM zones and the conversion between NAD 27 and NAD 83 69

GEOCHEMISTRY

6. **J.W. McConnell** Recent high-density lake-sediment and water surveys in central Labrador. 75

REGIONAL GEOLOGY

7. **W.D. Boyce, I. Knight, D.M. Rohr, S.H. Williams and E.A. Measures** The Upper St. George Group, western Port au Port Peninsula: Lithostratigraphy, biostratigraphy, depositional environments and regional implications. 101
8. **W.L. Dickson** Geology of the eastern portion of the Dawes Pond (NTS 12H/1) map area, central Newfoundland. 127
9. **C.F. Gower** Geology of the Upper St. Paul River map region, Grenville Province, eastern Labrador. 147
10. **D.T. James, S. Kamo and T.E. Krogh** Preliminary U-Pb geochronological data from the Mealy Mountains Terrane, Grenville Province, southern Labrador 169
11. **D.T. James and L. Nadeau** Geology of the Minipi Lake area (NTS 13C/South): New data from the southern Mealy Mountains Terrane, Grenville Province, Labrador. 179
12. **I. Knight and W.D. Boyce** Geological notes on the Cambro-Ordovician rocks of the Phillips Brook Anticline, north of Stephenville. 197
13. **B. McConnell and B. O'Brien** Stratigraphic and petrogenetic relationships between arc and non-arc basalts in western and southern parts of the Ordovician Wild Bight Group, Dunnage Zone, Newfoundland. 217
14. **J.C. Pollock and H. Williams** Clastic dykes in the Dunnage Melange, Halfmoon Bay, northeast Newfoundland 231

15.	D.M. Rohr, E.A. Measures, W.D. Boyce and I. Knight	Ongoing studies of Late Cambrian and Early Ordovician gastropods of western Newfoundland.	241
16.	B. Ryan	Geological investigations in the type locality of the Nain Plutonic Suite (NTS 14C/12)	251
17.	J.W.F. Waldron and S.E. Palmer	Lithostratigraphy and structure of the Humber Arm Allochthon in the type area, Bay of Islands, Newfoundland.	279
