|---------------------------------------------------------------------------------------------------------------------------------------|------|
| I. GEOLOGICAL MAPPING, INSULAR NEWFOUNDLAND. ....                                                                                     | 1    |
| <u>Harbour Breton Miscellanea, by B.A. Greene</u> .....                                                                               | 2    |
| <u>Geology of the Hare Bay area, northwestern</u><br><u>Bonavista Bay, by R.F. Blackwood</u> .....                                    | 7    |
| <u>Gaultois map area, by S.P. Colman-Sadd</u> .....                                                                                   | 15   |
| <u>Geology of the Lake Ambrose sheet, west</u><br><u>half by B.F. Kean</u> .....                                                      | 21   |
| <u>The Cambrian-Ordovician platformal rocks of</u><br><u>the Northern Peninsula, by I. Knight</u> .....                               | 27   |
| <u>Geology of the Grand Bank (1M/4) and Lamaline (1L/13)</u><br><u>map areas, by S.J. O'Brien, P.G. Strong, and J.L. Evans</u> .....  | 35   |
| <u>Geology of the Sound Island map area (east half),</u><br><u>by C.F. O'Driscoll</u> .....                                           | 43   |
| II. GEOLOGICAL MAPPING, LABRADOR. ....                                                                                                | 49   |
| <u>The geology of the Stipeck Lake-Walker Laker area,</u><br><u>Central Mineral Belt, Labrador, by W.R. Smyth</u> .....               | 50   |
| <u>Geologic setting of the Moran Lake uranium showings, Central</u><br><u>Mineral Belt, Labrador, by W.R. Smyth and B. Ryan</u> ..... | 57   |
| <u>Archean-Proterozoic geology of the Kanairiktok-Kaipokok</u><br><u>River Valleys (NTS 13K/10), Labrador, by B. Ryan</u> .....       | 63   |
| <u>Geological mapping of the Snelgrove Lake-Andre Lake</u><br><u>area, Labrador Trough, by R.J. Wardle</u> .....                      | 71   |
| III. MINERAL EVALUATION .....                                                                                                         | 79   |
| <u>Crown properties mineral evaluation survey, by</u><br><u>J.G. McArthur and A.F. Howse</u> .....                                    | 80   |
| <u>A reconnaissance survey of Newfoundland clay</u><br><u>deposits, by D.G. Vanderveer</u> .....                                      | 85   |
| IV. ENVIRONMENTAL GEOLOGY .....                                                                                                       | 89   |
| <u>Surficial and glacial mapping-- gravel resource</u><br><u>inventory, by D.G. Vanderveer</u> .....                                  | 90   |
| V. GEOCHEMISTRY .....                                                                                                                 | 97   |
| <u>Regional geochemical surveys in Newfoundland, by</u><br><u>P.H. Davenport and A.J. Butler</u> .....                                | 98   |
| VI. PUBLICATIONS. ....                                                                                                                | 103  |
