## Resilient Agricultural Landscape Program

The objective of the Resilient Agricultural Landscape Program (RALP) is to support producers to conserve and enhance the resiliency of agricultural landscapes by accelerating the adoption of on-farm land use and management practices that maximize provision of multiple ecological goods and services (EG&S). Funding priority will be placed on carbon sequestration Beneficial Management Practices (BMP). **Please consult the RALP Program Guide available at <http://gov.nl.ca/fal> for information relevant to this application.**

Please indicate the **RALP BMP number and RALP BMP(s)** under application:

Please indicate the **baseline condition component (current practice)**, as per the Appendix in the RALP Program Guide, being implemented on your farm/regional pasture that the RALP BMP(s) will be replacing:

Please indicate the **location** where the project will be taking place (municipality or local service district):

**Project Description:** Please provide a description of the proposed project, including information about the RALP BMP activity/activities indicated above. Describe how the project will improve your farm or regional pasture and how it will meet the objectives of the program to reduce greenhouse gas emissions; improve carbon sequestration; protect and regenerate soil, water and air quality; improve biodiversity; protect sensitive habitats; manage agricultural risks; and/or mitigate the anticipated impacts of climate change. **Please include the land title documents for the acreage where you intend to implement the RALP BMP.**

- Please confirm you have included a location/field map with your application identifying where the RALP BMP(s) will be implemented.
- I/we agree to implement and maintain the above RALP BMP(s) on the approved acreage for a minimum of three years and understand that this project will be subject to compliance inspections during that period of time.

Itemize estimated costs as they apply to your project (excluding HST).

## Climate Change and Environmental Outreach

The objective of the Climate Change and Environmental Outreach Initiative is to contribute to solutions that promote environmentally responsible agriculture, address agriculture's impacts on natural resources, and prepare for and respond to a changing climate by supporting BMPs. **Please consult the Sustainable CAP Program Guide pages 22-24 and the Climate Change and Environment (CCE) BMP list available at <http://gov.nl.ca/fal> prior to completing this application for relevant information.**

Please indicate the **CCE BMP number** and **CCE BMP(s)** under application:

If applicable, please indicate the **RALP BMP number** and **RALP BMP** for which equipment, infrastructure, and/or other eligible project funding is required for implementation of the RALP BMP:

Please indicate the **baseline condition component (current practice)**, as per the CCE BMP list, being implemented on your farm/agri-business that the CCE BMP(s) will be replacing:

Please indicate the **location** where the project will be taking place (municipality or local service district):

**Project Description:** Please provide a description of the project you are proposing, including information about the BMP activity/activities indicated above. Describe how the project will improve your farm or agri-business and how it will meet the objectives of the program to reduce greenhouse gas emissions; improve carbon sequestration; protect and regenerate soil, water and air quality; improve biodiversity; protect sensitive habitats; manage agricultural risks; and/or mitigate the anticipated impacts of climate change.
