Inspection Type and Date	Compliance Item		Observations and Corrective Actions
	Type	Code - Description	
Food - Routine Inspection <b>Feb 06, 2026</b>	<b>Critical Item(s)</b>	302 - Food in Good Condition, Safe and Unadulterated	<b>Corrected During Inspection</b> Expired food items were observed in the coolers. Cracked eggs were being used, and poor-quality or spoiled produce was being offered for sale on the premises.
		402 - Food Contact Surfaces Cleaned and Sanitized	<b>Corrected During Inspection</b> The meat-cutting machine was not cleaned properly. It must be thoroughly cleaned and sanitized to ensure no meat particles remain on the slicer.
	<b>Non-Critical Item(s)</b>	502 - Appropriate procedures followed for mechanical and/or manual dishwashing	Utensils are not being sanitized after washing and rinsing.
		503 - Proper Storage of Frozen Food Items	All the frozen bakery items have frost buildup due to improperly closed freezer doors. The freezer door needs to be repaired, and all frost- covered products must be removed from the freezer.
		504 - Food storage containers not used for other purposes	Eggs were being transferred into old cartons, and eggs were found stored in cartons that were past their expiry date.
		506 - Equipment in good repair, cleaned and sanitized	Mold was observed under the meat walk in cooler racks, indicating the need for thorough cleaning. Blood stains were present on the walk-in cooler door and floor. The sanitizer bottles used for meat- grinding equipment were dirty, creating a risk of cross-contamination.
