Background

The purpose of this map amendment is to re-designate lands south of Main Street (the Subject Property) from 'Residential' to 'Rural' to accommodate a commercial construction yard business. The business would be owned and operated by the landowner of the adjacent residential property to the north of the Subject Property. The lands are privately held and the subsequent approval of an access is subject to discretionary approval of Council pursuant to regulation 46.

Municipal Plan policies guiding this amendment include:

9. Backlot Development

(1) At its discretion, Council may permit the creation of backland lots insofar as the development uses land efficiently, is economical for the delivery of municipal services, preserves the Town's natural and historic character, and does not isolate nearby parcels of and in a way that would preclude them from being developed in the future.

2. [Rural Designation] Land Uses

(4) At Council's discretion, limited types of commercial development may be permitted, where such uses are complementary to permitted uses and would not significantly affect the existing character and environmental integrity of the area.

Public Consultation

The proposed amendment was posted on the Town's Facebook account on January 3, 2025. Residents were provided an opportunity to provide comments by January 31, 2025. Two submissions were received.
