**TOWN OF MCIVER'S  
MUNICIPAL PLAN AMENDMENT No. 1, 2025**

**BACKGROUND**

The Town Council of McIver's wishes to amend its Municipal Plan (hereinafter called 'Municipal Plan' or ICSMP) The proposed amendment seeks to create a new land use designation 'Mixed Development' in the Municipal Plan and make change the 2020-2030 Municipal Plan's Future Land Use Map. The proposed amendment will provide polices to guide future development in the Mixed Development designation. Development standards and conditions will be provided in the Development Regulations for a Mixed Development zone and the Land Use Zone will be amended for a 'Mixed Development' zone.

The Town of McIver's has received requests regarding development along the provincial highway Route #440 near the south border of the community adjacent to the Municipal Planning area boundary with the Town of Gillams. About four Crown land applications have been denied due to the Resource zone currently in the area that does not allow for residential or commercial development. This area was previously considered for mixed development which would allow for both residential and commercial development along the provincial highway. This would be similar to the Mixed Development zone along Route #440 in he neighbouring community of Gillams.

Overall in the community, much of the land adjacent to Route #440 is not suitable for development due to either steep slopes, surficial bedrock or extensive wetlands. This particular 0.6 kilometres of road has land that is potentially suitable for development. It should be noted that the Town has no intention of providing water and sewer services to this area; therefore, any development would be required to meet the onsite services requirements of the Department of Digital Services and Service NL. Garbage trucks drive past these lands and will not incur additional excessive cost to the Town. The Town supports this development as it will not incur any new costs for snow-clearing or maintenance as the provincial highway is operated by the Provincial Government.

The area is all Crown land; therefore, the application will be referred to all relevant provincial agencies by the Crown lands Division including the Department of Transportation and Infrastructure. The Department of Transportation and Infrastructure require a specific location to consider before approving an access permit under their 'Access to Provincial Highways' policy. Once the individual secures a Crown land title, they will be required to apply for a development permit from the Town. As part of that process the applicant will be required to secure an access permit to the provincial highway which would be processed through the Department of Digital Services and Service NL.

The Town of McIver's believes that the development of this area would be beneficial to the community as the community has very limited lands available for commercial and residential development. Therefore, the Town is creating a Mixed Development designation in the Municipal Plan which will enable a Mixed Development zone in the Development Regulations.

Council is also considering an amendment to the 2020-2030 Development Regulations to add the new 'Mixed Development; zone and accommodate the new zone on the Land Use Zoning map that will allow for mixed development at this site.

## **PUBLIC CONSULTATION**

During the preparation of this proposed amendment, Council undertook the following initiatives so that individuals could provide input. A Notice was posted on the Town website and the Town Facebook page on February 7, 2025 and posted on bulletin boards in the following locations: K's Convenience and Liquor Express, Lain's Auto, Confectionary and Takeout, and the Post Office.

No Submissions were received by the Town.
