## **DEVELOPMENT REGULATIONS AMENDMENT No. 29, 2025**

### **Background**

Paradise Development Regulations Amendment No. 29, 2025, has been prepared to address an issue identified in the Planned Mixed Development (Residential) (PMDR) and Residential Mixed (RM) zones as described below.

The proposed amendment introduces a minimum front yard landscaping requirement within the zone standards table for the Planned Mixed Development (Residential) (PMDR) and Residential Mixed (RM) zone. Currently, this zone lacks specific regulations addressing front yard landscaping, which has led to challenges in maintaining consistent streetscape aesthetics and green space.

For instance, semi-detached and row housing dwellings are permitted a minimum lot frontage of 6 metres. In cases where a subsidiary apartment is added, it is possible for the entire frontage to be utilized as a driveway to meet parking requirements. This often results in the complete loss of front yard landscaping.

The amendment seeks to address this imbalance by ensuring that a portion of the front yard remains landscaped, even where additional dwelling units are incorporated. This will help preserve the visual quality and green character of residential streets, support neighbourhood livability.

### **2016 Paradise Municipal Plan**

The proposed amendment to the 2016 Paradise Development Regulations is consistent with the strategic goals identified in the Municipal Plan, which aim to create “healthy, livable neighbourhoods.” The proposed amendment does not require an amendment to the 2016 Paradise Municipal Plan.

### **St. John’s Urban Region Regional Plan**

The proposed changes to the 2016 Paradise Development Regulations do not require an amendment to the 2016 Paradise Municipal Plan or the St. John’s Urban Region Regional Plan.
