TOWN OF PARADISE

DEVELOPMENT REGULATIONS AMENDMENT No. 25, 2024

Background

This amendment includes changes to the 2016 Paradise Development Regulations regarding three (3) main topics:

1. Adding accessory buildings to the zone standard table
2. Access to subsidiary apartments

1. Accessory Buildings

This is to remove the ambiguity regarding application of variances to accessory buildings. The amendment would add accessory buildings to the list of Zone Standard Table allowing variances to be applicable to the accessory buildings. Currently, based on the definition of the variance means “a departure, to a maximum of 10% from the Yard, area, Lot Coverage, Setback, size, height, Frontage, or any other numeric requirement of the applicable Use Zone table of Council’s Regulations.” In this case adding the accessory building to the table would remove any ambiguity in interpretation of application of variances to accessory buildings.

2. Access to Subsidiary Apartments

To ensure that new units offer adequate space for access, this amendment requires the submission of a plan illustrating access routes to the proposed subsidiary apartments. This necessity was highlighted following a recent application for a subsidiary apartment. After a site visit, it was realized that the newly proposed unit failed to provide residents with sufficient access to the unit. This amendment aims to address such issues, ensuring all new units are accessible and meet our community's standards for safety and convenience.

3. General Garage Parking Requirement

This issue came to the Town's attention following the submission of an application under the “General Garage” category. It was then realized that the number of parking spaces required by current regulations exceeds what is actually necessary. According to the current regulations, General Garages are required to provide five spaces per service bay, in addition to one space per employee. While the requirement for General Industry (of which General Garage is classified under the use class in Appendix B: Classification of Uses and Buildings of the Development Regulations) is one space for every employee, plus an additional three spaces. Therefore, the Town is proposing an amendment to align the parking requirements for General Industry and General Garage.

2016 Paradise Municipal Plan

The proposed changes to the 2016 Paradise Development Regulations do not require an amendment to the 2016 Paradise Municipal Plan. The proposed amendment is in line with the objective of healthy, livable neighbourhoods by ensuring access to housing and facilitating the development of homes that cater to a diverse range of needs.

St. John's Urban Region Regional Plan

The proposed changes to the 2016 Paradise Development Regulations do not require an amendment to the 2016 Paradise Municipal Plan or the St. John's Urban Region Regional Plan.

Public Consultation

During the preparation of this amendment, the Town of Paradise published a notice in The Shoreline newspaper on April 26, and May 3, 2024. A notice was also posted on the Town's website advertising Development Regulation Amendment No. 25, 2024 from April 26, 2024 until May 13, 2024. The notice was also published on the Town's social media page and sent out on Voyent (Town's email alert system) on April 26, 2024. The amendment documents were available on the Town's website for the public to review during that same time. The Town accepted written submissions on the proposed change in writing from April 26 until 4:30pm, May 13, 2024. The Town did not receive any written submissions.

Town of Paradise Development Regulations Amendment No. 25, 2024

The 2016 Paradise Development Regulations is amended as follows:

1. Accessory Buildings

To add accessory buildings to the zone standard table, an amendment to the text of Development Regulations is required. This involves making the following changes to the Zone Standards tables:
