Short title

1. These regulations may be cited as the *Development Regulations*.

Definitions

2. In these regulations,

- (a) "Act", unless the context indicate otherwise, means the *Urban and Rural Planning Act, 2000*;
- (b) "applicant" means a person who has applied to an authority for an approval or permit to carry out a development;
- (c) "authority" means a council, authorized administrator or regional authority; and
- (d) "development regulations" means these regulations and regulations and by-laws respecting development that have been enacted by the relevant authority.

Application

3. (1) These regulations shall be included in the development regulations of an authority and shall apply to all planning areas.

(2) Where there is a conflict between these regulations and development regulations or other regulations of an authority, these regulations shall apply.

(3) Where another Act of the province provides a right of appeal to the board, these regulations shall apply to that appeal.

Interpretation

4. (1) In development regulations and other regulations made with respect to a planning area the following terms shall have the meanings indicated in this section

- (a) "access" means a way used or intended to be used by vehicles, pedestrians or animals in order to go from a street to adjacent or nearby land or to go from that land to the street;
- (b) "accessory building" includes

- (i) a detached subordinate building not used as a dwelling, located on the same lot as the main building to which it is an accessory and which has a use that is customarily incidental or complementary to the main use of the building or land,
  - (ii) for residential uses, domestic garages, carports, ramps, sheds, swimming pools, greenhouses, cold frames, fuel sheds, vegetables storage cellars, shelters for domestic pets or radio and television antennae,
  - (iii) for commercial uses, workshops or garages, and
  - (iv) for industrial uses, garages, offices, raised ramps and docks;
- (c) "accessory use" means a use that is subsidiary to a permitted or discretionary use and that is customarily expected to occur with the permitted or discretionary use;
- (d) "building height" means the vertical distance, measured in metres from the established grade to the
- (i) highest point of the roof surface of a flat roof,
  - (ii) deck line of a mansard roof, and
  - (iii) mean height level between the eave and the ridge of a gable, hip or gambrel roof,
- and in any case, a building height shall not include mechanical structure, smokestacks, steeples and purely ornamental structures above a roof;
- (e) "building line" means a line established by an authority that runs parallel to a street line and is set at the closest point to a street that a building may be placed;
- (f) "discretionary use" means a use that is listed within the discretionary use classes established in the use zone tables of an authority's development regulations;
- (g) "established grade" means,

- (i) where used in reference to a building, the average elevation of the finished surface of the ground where it meets the exterior or the front of that building exclusive of any artificial embankment or entrenchment, or
- (ii) where used in reference to a structure that is not a building, the average elevation of the finished grade of the ground immediately surrounding the structure, exclusive of any artificial embankment or entrenchment;
- (h) "floor area" means the total area of all floors in a building measured to the outside face of exterior walls;
- (i) "frontage" means the horizontal distance between side lot lines measured at the building line;
- (j) "lot" means a plot, tract or parcel of land which can be considered as a unit of land for a particular use or building;
- (k) "lot area" means the total horizontal area within the lines of the lot;
- (l) "lot coverage" means the combined area of all building on a lot measured at the level of the lowest floor above the established grade and expressed as a percentage of the total area of the lot;
- (m) "non-conforming use" means a legally existing use that is not listed as a permitted or discretionary use for the use zone in which it is located or which does not meet the development standards for that use zone;
- (n) "owner" means a person or an organization of persons owning or having the legal right to use the land under consideration;
- (o) "permitted use" means a use that is listed within the permitted use classes set out in the use zone tables of an authority's development regulations;
- (p) "prohibited use" means a use that is not listed in a use zone within the permitted use classes or discretionary use classes

or a use that an authority specifies as not permitted within a use zone;

- (q) "sign" means a word, letter, model, placard, board, device or representation, whether illuminated or not, in the nature of or employed wholly or in part for the purpose of advertisement, announcement or direction and excludes those things employed wholly as a memorial, advertisements of local government, utilities and boarding or similar structures used for the display of advertisements;
- (r) "rear yard depth" means the distance between the rear lot line and the rear wall of the main building on a lot;
- (s) "side yard depth" means the distance between the side lot line and the nearest side wall of a building on the lot;
- (t) "street" means a street, road, highway or other way designed for the passage of vehicles and pedestrians and which is accessible by fire department and other emergency vehicles;
- (u) "street line" means the edge of a street reservation as defined by the authority having jurisdiction;
- (v) "use" means a building or activity situated on a lot or a development permitted on a lot;
- (w) "use zone" or "zone" means an area of land including buildings and water designated on the zoning map to which the uses, standards and conditions of a particular use zone table apply;
- (x) "variance" means a departure, to a maximum of 10% from the yard, area, lot coverage, setback, size, height, frontage or any other numeric requirement of the applicable Use Zone Table of the authority's regulations; and
- (y) "zoning map" means the map or maps attached to and forming a part of the authority's regulations.

(2) An authority may, in its discretion, determine the uses that may or may not be developed in a use zone and those uses shall be

listed in the authority's regulations as discretionary, permitted or prohibited uses for that area.

Notice of right to  
appeal

5. Where an authority makes a decision that may be appealed under section 42 of the Act, that authority shall, in writing, at the time of making that decision, notify the person to whom the decision applies of the

- (a) person's right to appeal the decision to the board;
- (b) time by which an appeal is to be made;
- (c) right of other interested persons to appeal the decision; and
- (d) manner of making an appeal and the address for the filing of the appeal.

Appeal  
requirements

6. (1) The secretary of the board at the Department of Municipal and Provincial Affairs, Main Floor, Confederation Building (West Block), P.O. Box 8700, St. John's, Nfld., A1B 4J6 is the secretary to all boards in the province and an appeal filed with that secretary within the time period referred to in subsection 42(4) of the Act shall be considered to have been filed with the appropriate board.

(2) Notwithstanding subsection (1), where the City of Corner Brook, City of Mount Pearl or City of St. John's appoints an appeal board under subsection 40(2) of the Act, an appeal shall be filed with the secretary of that appointed board.

(3) The fee required under section 44 of the Act shall be paid to the board that hears the decision being appealed by filing it with the secretary referred to in subsection (1) or (2) within the 14 days referred to in subsection 42(4) of the Act.

(4) The board that hears the decision being appealed shall, subject to subsection 44(3) of the Act, retain the fee paid to the board.

(5) Where an appeal of a decision and the required fee is not received by a board in accordance with this section and Part VI of the Act, the right to appeal that decision shall be considered to have been forfeited.

Appeal registration 7. (1) Upon receipt of an appeal and fee as required under the Act and these regulations, the secretary of the board as referred to in subsections 6(1) and (2), shall immediately register the appeal.

(2) Where an appeal has been registered the secretary of the board shall notify the appropriate authority of the appeal and shall provide to the authority a copy of the appeal and the documentation related to the appeal.

(3) Where an authority has been notified of an appeal that authority shall forward to the appropriate board a copy of the application being appealed, all correspondence, council minutes, plans and other relevant information relating to the appeal including the names and addresses of the applicant and other interested persons of whom the authority has knowledge.

(4) Upon receipt of the information under subsection (3), the secretary of the board shall publish in a newspaper circulated in the area of the appropriate authority, a notice that the appeal has been registered.

(5) A notice published under subsection (4) shall be published not fewer than 2 weeks before the date upon which the appeal is to be heard by the board.

Development prohibited 8. (1) Immediately upon notice of the registration of an appeal the appropriate authority shall ensure that any development upon the property that is the subject of the appeal ceases.

(2) Sections 102 and 104 of the Act apply to an authority acting under subsection (1).

(3) Upon receipt of a notification of the registration of an appeal with respect to an order under section 102 of the Act, an authority shall not carry out work related to the matter being appealed.

Hearing notice and meetings 9. (1) A board shall notify the appellant, applicant, authority and other persons affected by the subject of an appeal of the date, time and place for the appeal not fewer than 7 days before the date scheduled for the hearing of the appeal.

(2) A board may meet as often as is necessary to conduct its work in an expeditious manner.

Hearing of evidence	<p>10. (1) A board shall meet at a place within the area under its jurisdiction and the appellant and other persons notified under subsection 9(1) or their representative may appear before the board and make representations with respect to the matter being appealed.</p> <p>(2) A board shall hear an appeal in accordance with section 43 of the Act and these regulations.</p> <p>(3) A written report submitted under subsection 43(2) of the Act respecting a visit to and viewing of a property shall be considered to have been provided in the same manner as evidence directly provided at the hearing of the board.</p> <p>(4) In the conduct of an appeal hearing, the board is not bound by the rules of evidence.</p>
Board decision	<p>11. A decision of the board must comply with the plan, scheme or development regulations that apply to the matter that has been appealed to that board.</p>
Variances	<p>12. (1) Where an approval or permit cannot be given by an authority because a proposed development does not comply with development standards set out in development regulations, an authority may, in its discretion, vary the applicable development standards to a maximum of 10% if, in the authority's opinion, compliance with the development standards would prejudice the proper development of the land, building or structure in question or would be contrary to public interest.</p> <p>(2) An authority shall not allow a variance from development <del>standards set out in development regulations if that variance, when</del> considered together with other variances made or to be made with respect to the same land, building or structure, would have a cumulative effect that is greater than a 10% variance even though the individual variances are separately no more than 10%.</p> <p>(3) An authority shall not permit a variance from development standards where the proposed development would increase the non conformity of an existing development.</p>
Notice of variance	<p>13. Where an authority is to consider a proposed variance, that authority shall give written notice of the proposed variance from development standards to all persons whose land is in the immediate vicinity of the land that is the subject of the variance.</p>

Residential non conformity	14. A residential building or structure referred to in paragraph 108(3)(g) of the Act must, where being repaired or rebuilt, be repaired or rebuilt in accordance with the plan and development regulations applicable to that building or structure.
Notice and hearings on change of use	15. Where considering a non conforming building, structure or development under paragraph 108(3)(d) of the Act and before making a decision to vary an existing use of that non-conforming building, structure or development, an authority, at the applicant's expense, shall publish a notice in a newspaper circulating in the area or by other means give public notice of an application to vary the existing use of a non-conforming building, structure or development and shall consider any representations or submissions received in response to that advertisement.
Non-conformance with standards	16. Where a building, structure or development does not meet the development standards included in development regulations, the building, structure or development shall not be expanded if the expansion would increase the non-conformity and an expansion must comply with the development standards applicable to that building, structure or development.
Discontinuance of non-conforming use	17. An authority may make development regulations providing for a greater period of time than is provided under subsection 108(2) of the Act with respect to the time by which a discontinued non-conforming use may resume operation.
Delegation of powers	18. An authority shall, where designating employees to whom a power is to be delegated under subsection 109(3) of the Act, make that designation in writing.
Commencement	19. These regulations shall be considered to have come into force on January 1, 2001.

## **PART II – GENERAL REGULATIONS**

- 1. Compliance With Regulations** - No development shall be carried out within the Planning Area except in accordance with these Regulations.
- 2. Permit Required** - No person shall carry out any development within the Planning Area except where otherwise provided in these Regulations unless a permit for the development has been issued by the Authority.
- 3. Decisions of the Authority** - Decisions made by the Authority with respect to a permit required by these Regulations shall be made in writing, and state the reasons for a refusal of, or conditions placed upon, a permit. The Authority shall also advise the person to whom the decision applies of their right to appeal, in accordance with Section 42 of the Act and the requirements of Section 5, Part I, of these Regulations.
- 4. Permit to be Issued** - Subject to Regulations 5 and 6, a permit shall be issued for development within the Planning Area that conforms to:
  - (1) The general development standards set out in Part III of these Regulations, the requirements of Part VI of these Regulations, and the use classes, standards, requirements, and conditions prescribed in Schedule C of these Regulations for the use zone in which the proposed development is located;
  - (2) The standards set out in the Building Code and/or other ancillary codes, and any Building Regulations, Waste Disposal Regulations, and/or any other municipal regulation in force in the Planning Area regulating or controlling development, conservation and use of land and buildings;
  - (3) The standards set out in Part IV of these Regulations in the case of signs;
  - (4) The standards set out in Part V of these Regulations in the case of subdivision;
  - (5) The standards of design and appearance established by the Authority.
- 5. Permit Not to be Issued in Certain Cases** - Neither a permit, nor approval in principle, shall be issued for development within the Planning Area when, in the opinion of the Authority, it is premature by reason of the site lacking adequate road access, power, drainage, sanitary facilities, or domestic water supply, or being beyond the natural development of the area at the time of application, unless the applicant contracts to pay the full cost of construction of the services deemed necessary by the Authority and such cost shall attach to and upon the property in respect of which it is imposed.

- 6. Discretionary Powers of Authority** - In considering an Application for a permit or for approval in principle to carry out development, the Authority shall take into account the policies expressed in the Municipal Plan and any further scheme, plan or regulations pursuant thereto, and shall assess the general appearance of the development of the area, the amenity of the surroundings, availability of utilities, public safety and convenience, and any other considerations which are, in its opinion, material, and notwithstanding the conformity of the application with the requirements of these Regulations, the Authority may, in its discretion, and as a result of its consideration of the matters set out in this Regulation, conditionally approve or refuse the application.

**7. Form of Application**

- (1) Applications for a development permit or for approval in principle shall be:
- (a) made to the Authority only by the owner or by a person authorized by the owner;
  - (b) made on a form as may be prescribed by the Authority, including such plans, specifications and drawings as the Authority may require; and
  - (c) accompanied by the appropriate fee set out in a Schedule of Fees as required by the Authority.
- (2) The Authority shall, on request, supply to every applicant a copy of the application forms referred to in Regulation 7(1) and a description of the plans, specifications and drawings required to be provided with the application.

- 8. Register of Application** - The Authority shall keep a public register of all applications for development, and shall enter therein the Authority's decision upon each application and the result of any appeal from that decision.

**9. Deferment of Application**

- (1) The Authority may, with the written agreement of the applicant, defer consideration of an application.
- (2) Applications properly submitted in accordance with these Regulations which have not been determined by the Authority and on which a decision has not been communicated to the applicant within eight weeks of the receipt thereof by the Authority, and on which consideration has not been deferred in accordance with Regulation 9(1), shall be deemed to be refused.

## **10. Approval in Principle**

- (1) The Authority may grant approval in principle for a development or for the erection, alteration or conversion of a building if, after considering an application for approval in principle made under these Regulations, it is satisfied that the proposed development is, subject to the approval of detailed plans, in compliance with these Regulations.
- (2) Where approval in principle is granted under this Regulation, it shall be subject to the subsequent approval by the Authority of such details as may be listed in the approval in principle, which shall also specify that further application for approval of these details shall be received not later than two years from the grant of approval in principle.

## **11. Development Permit**

- (1) A plan or drawing which has been approved by the Authority and which bears a mark and/or signature indicating such approval together with a permit shall be deemed to be permission to develop land in accordance with these Regulations, but such permission shall not relieve the applicant from full responsibility for obtaining permits or approvals under any other regulation or statute prior to commencing the development; from having the work carried out in accordance with these Regulations or any other regulations or statutes; and from compliance with all conditions imposed thereunder.
- (2) The Authority may attach to a permit or to approval in principle such conditions as it deems fit in order to ensure that the proposed development will be in accordance with the purposes and intent of these Regulations.
- (3) Where the Authority deems necessary, permits may be issued on a temporary basis for a period not exceeding one year, which may be extended in writing by the Authority for further periods not exceeding one year.
- (4) A permit is valid for such period, not in excess of two years, as may be stated therein, and if the development has not commenced, the permit may be renewed for a further period not in excess of one year, but a permit shall not be renewed more than once, except in the case of a permit for a sign, which may be renewed in accordance with Part IV of these Regulations.
- (5) The approval of any application and plans or drawings or the issue of a permit shall not prevent the Authority from thereafter requiring the correction of errors, or from ordering the cessation, removal of, or remedial work on any development being carried out in the event that the same is in violation of this or any other regulations or statute.

- (6) The Authority may revoke a permit for failure by the holder of it to comply with these Regulations or any condition attached to the permit or where the permit was issued in error or was issued on the basis of incorrect information.
- (7) No person shall erase, alter or modify any drawing or specifications upon which a permit to develop has been issued by the Authority.
- (8) There shall be kept available on the premises where any work, matter or thing is being done for which a permit has been issued, a copy of the permit and any plans, drawings or specifications on which the issue of the permit was based during the whole progress of the work, or the doing of the matter or thing until completion.

## **12. Notice of Application**

- (1) The Authority shall provide public notice for a period of not less than:
  - (1) 7 days - when considering a variance in accordance with Section 12 of Part I;
  - (b) 14 days - when considering a change in non-conforming use in accordance with Section 15 of Part I; or development which is listed as a Discretionary use in Schedule C of these Regulations.
- (2) Where public notice is required, the costs of that notice shall be borne by the applicant.

## **13. Licenses, Permits and Compliance with Other Bylaws** - Nothing in these Regulations shall exempt any person from complying with the requirements of any by-law in force within the Town of Peterview, or from obtaining any license, permission, permit, authority or approval required by any statute or regulation of the Province of Newfoundland and Labrador or the Government of Canada.

## **14. Right of Entry** - The Authority, the Director, or any inspector may enter upon any public or private land and may at all reasonable times enter any development or building upon the land for the purpose of making surveys or examinations or obtaining information relative to the carrying out of any development, construction, alteration, repair, or any other works whatsoever which the Authority is empowered to regulate.

## **15. Record of Violations** - Every inspector shall keep a record of any violation of these regulations which comes to his knowledge and report that violation to the Authority.

## **16. Stop Work Order and Prosecution**

- (1) Where a person begins a development contrary, or apparently contrary, to these Regulations, the Authority may order that person to pull down, remove, stop construction, fill in, or destroy that building or development and may order the person to restore the site or area to its original state, pending final adjudication in any prosecution arising out of the development.
- (2) A person who does not comply with an Order made under Regulation 16(1) is guilty of an offence under the provisions of the *Act*.

## **17. Service Levy**

- (1) The Authority may require a developer to pay a service levy where development is made possible or where the density of potential development is increased, or where the value of property is enhanced by the carrying out of public works either on or off the site of the development.
- (2) A service levy shall not exceed the cost, or estimated cost, including finance charges to the Authority of constructing or improving the public works referred to in Regulation 17(1) that are necessary for the real property to be developed in accordance with the standards required by the Authority and for uses that are permitted on that real property.
- (3) A service levy shall be assessed on the real property based on:
  - (a) The amount of real property benefited by the public works related to all the real property so benefited; and
  - (b) The density of development made capable or increased by the public work.
- (4) The Authority may require a service levy to be paid by the owner of the real property at:
  - (a) the time the levy is imposed;
  - (b) the time development of the real property commences;
  - (c) the time development of the real property is completed; or
  - (d) such other time as the Authority may decide.

**18. Financial Guarantees by Developer**

- (1) The Authority may require a developer before commencing a development to make such financial provisions and/or enter into such agreements as may be required to guarantee the payment of service levies, ensure site reinstatement, and to enforce the carrying out of any other condition attached to a permit or license.
- (2) The financial provisions pursuant to Regulation 18(1) may be made in the form of:
  - (a) a cash deposit from the developer, to be held by the Authority, or;
  - (b) a guarantee or irrevocable letter of credit by a bank, or other institution
  - (c) acceptable to the Minister, for expenditures by the developer, or;
  - (d) a performance bond provided by an insurance company or a bank, or;
  - (e) an annual contribution to a sinking fund held by the Authority.

**19. Dedication of Land for Public Use** - In addition to the requirements for dedication of land under Regulation 82, Part V, the Authority may require the dedication of not more than 10% of the land area of any subdivision or other development for public use, and such land shall be conveyed to the Authority in accordance with Section 37 of the *Act*.

**20. Reinstatement of Land** - Where the use of land is discontinued or the intensity of its use is decreased, the Authority may order the developer, the occupier of the site, or the owner or all of them, to reinstate the site, to remove all or any buildings or erections, to cover or fill all wells or excavations, and to close all or any accesses, or to do any of these things or all of them, as the case may be, and the developer, occupier or owner shall carry out the order of the Authority and shall put the site in a clean and sanitary condition to the satisfaction of the Authority

## **PART III – GENERAL DEVELOPMENT STANDARDS**

**21. Accesses and Service Streets** - Access shall be located to the specification of the Authority so as to ensure the greatest possible convenience and safety of the street system and the Authority may prescribe the construction of service streets to reduce the number of accesses to collector and arterial streets. No vehicular access shall be closer than 10 metres to the street line of any street intersection.

**22. Accessory Buildings**

(1) May be located on the same lot as the main building(s) to which it is accessory; or on a lot adjoining the lot that contains the main building, where both lots are under the same ownership.

(2) No accessory building or part thereof shall project in front of any building line.

(3) No accessory building shall be developed so that it can be used as a room, flat or apartment.

(4) Accessory buildings shall be complementary with the main building in terms of exterior finish, roofline and pitch.

**23. Accessory Uses Permitted** - Where these regulations provide for any land to be used, or building to be erected or used for a purpose, the purpose shall include any accessory use, and such uses shall be clearly incidental and complementary to the use of the main building.

**24. Advertisements** - Advertisements shall not be erected or displayed except in accordance with Part IV of these Regulations and the Use Zones tables in Schedule C of these Regulations.

**25. Alterations to the Natural Environment** - Development proposals shall include plans for grading, ditching, and landscaping. Significant alterations to the natural environment (such as changing the drainage pattern or removing vegetation) will be considered during the evaluation of development proposals. Alterations which will adversely affect watercourses or adjacent property as a result of alterations to watercourses shall not be permitted. Topsoil or sods shall not be removed except with the approval of Council.

- 26. Archaeological Assessment** - In accordance with the Peterview Municipal Plan, Policies G -13 Protection of Archaeological Resources, the Authority may require an archaeological assessment for development in any use zone where archaeological resources are known to exist, or where they are likely to exist based on location and historical evidence. Applications for development on undeveloped land will be forwarded to the Provincial Archaeology Office, Department of Tourism, Culture and Recreation, for review and consideration under the *Historic Resources Act*.
- 27. Bed and Breakfast Establishments** - A Bed and Breakfast establishment (See definition 13, Schedule A), where permitted, shall be subject to the following conditions:
- (1) The use is in a single dwelling occupied as a residence by the operator of the business.
  - (2) No addition or alteration shall be undertaken which changes the roofline; increases the height of the building; or extends into the front or side-yards of the lot, except for dormers and/or structures necessary for public safety such as fire escapes.
  - (3) The nature and scale of the proposed use is consistent with the adjoining development and the use does not detract from the residential character of the neighbourhood.
  - (4) That a minimum of one (1) paved parking space per room, in addition to those required for the residential use, be provided on the lot.
  - (5) A parking area abutting a residential lot shall be appropriately screened by a fence, wall, or hedge of height not less than one (1) metre and located a minimum distance of 1 metre from the edge of the parking area.
  - (6) A single, non-illuminated, free-standing sign, not exceeding 0.4m<sup>2</sup> (4ft<sup>2</sup>) in area, shall be permitted, provided that the design of the sign is consistent with the residential character and amenity of the area.
  - (7) That the use is approved and licensed under the *Tourist Establishment Regulations*, 1996, of the Provincial Department of Tourism, Culture and Recreation.
- 28. Buffer Strips** - Where development is proposed that, in the opinion of the Authority, will have a visual impact on a highway, viewscape, or abutting land use, the Authority may require the owner of the site to provide a buffer strip not less than ten (10) metres wide to screen the development. The buffer shall include provision of such natural or structural barrier as may be required by the Authority and shall be maintained by the owner or occupier to the satisfaction of the Authority.

- 29. Building Accessibility** - All public and institutional buildings shall be constructed in conformity with the *Buildings Accessibility Act and Regulations* to ensure accessibility for persons with physical and/or sensory disabilities.
- 30. Building Height** - The Authority may permit the erection of buildings of a height greater than that specified in Schedule C, but in such cases the building line setback and rear-yard requirements shall be varied as follows:
- (1) The building line setback shall be increased by 2 metres for every 1 metre increase in height.
  - (2) The side-yard width shall be increased by 1 metre for every 1 metre increase in height.
  - (3) The rear-yard shall not be less than the minimum building line setback calculated as described in (1) above plus 6 metres.
- 31. Building Line Setback** - The Authority, by resolution, may establish building lines on an existing or proposed street or service street and may require any new buildings to be located on those building lines, whether or not such building lines conform to the standards set out in the tables in Schedule C of these regulations.
- 32. Easements and Emergency Access** - Where land is required for utility easements or emergency access, such land may be obtained for the appropriate agency (ie. Newfoundland Power) in the course of approving subdivision or other development applications.
- 33. Environmental Site Assessment** - The Authority may require an environmental site assessment as a condition of approval for development of lands that were previously used for commercial or industrial purposes. Where such an assessment indicates the presence of hazardous materials, no development will be permitted until a full environmental site assessment has been undertaken and remediation measures implemented by a firm qualified to perform such work to the satisfaction of the Department of Environment and Conservation and the Authority.
- 34. Height Exceptions** - The height requirements prescribed in Schedule C of these Regulations may be waived in the case of communication masts and antennae, flagpoles, water towers, spires, belfries, or chimneys, but any such waiver which results in an increase of more than 20% in the permitted height of the structure shall only be authorized under the provisions of Regulation 12, Part I and Regulation 12, Part II.
- 35. Home Childcare Service** - Where permitted by the Town of Peterview, childcare as a home occupation shall conform to the requirements of the *Child Care Services Act and Regulations*. Where required, a license to operate shall be obtained from the Department of Health and Community Services.

### 36. Home Occupations

- (1) The following conditions shall apply to the use of a dwelling for a home occupation:
- (a) The residence is occupied by the operator of the home occupation;
  - (b) The use is clearly subsidiary to the residential use, does not alter the residential character of the property, and does not detract from the residential character of the neighbourhood. The external appearance of the dwelling shall not be changed by the home occupation;
  - (c) There are no more than 2 assistant employees employed on site in addition to a resident of the dwelling;
  - (d) Not more than 25 percent of the total floor area of the dwelling to a maximum of 45m<sup>2</sup> (500ft<sup>2</sup>) is devoted to the home occupation;
  - (e) There is no increase in the Gross Floor area of the dwelling unit;
  - (f) One off-street parking space, other than that required for the dwelling, is provided for every 18.5m<sup>2</sup> (200ft<sup>2</sup>) of floor space occupied by the home occupation;
  - (g) No wholesale, outdoor storage of goods or equipment is carried out, any retail sales are incidental and subsidiary to the approved use;
  - (h) A single, non-illuminated, free-standing sign, not exceeding 0.4m<sup>2</sup> (4ft<sup>2</sup>) in area, shall be permitted, provided that the design of the sign is consistent with the residential character and amenity of the area;
  - (i) No change shall be made in the type, class, or extent of the occupation without a permit;
  - (j) The use shall not generate traffic, parking, sewage or water use in excess of what is normal in the residential area;
  - (k) No regular parking of commercial vehicles or trailers except for one vehicle with a gross weight of no greater than one tonne will be permitted;
  - (l) No commercial vehicles associated with the home occupation or trailers are permitted to park in the street reservation.
  - (m) The residential lot has sufficient area to accommodate the parking requirement of the dwelling unit and the home occupation.
- (2) **Home Occupations in Accessory Buildings** - In addition to the requirements set out in Regulation 36(1), a home occupation where permitted in a building subsidiary to a residential dwelling (ie. an accessory building) shall:
- (a) Be located on the same lot as the residential use;
  - (b) The business shall be owned and operated by the occupants of the dwelling;
  - (c) No repairs to vehicles or heavy equipment are carried out;
  - (d) Activities associated with the use are carried on inside the accessory building, are not hazardous and do not cause a noticeable increase in noise, odour, dust or fumes, nor cause electrical interference, or in any other way result in a nuisance to the occupants of surrounding residences.

### **37. Landscaping and Screening**

- (1) All land except that used for customer parking and vehicle access shall be landscaped and maintained by the owner or occupier to the satisfaction of the Authority.
- (2) The Authority may, in the case of existing unsightly development, order the owner or occupier to provide adequate and suitable landscaping or screening; and for this purpose may require the submission of an application giving details of the landscaping or screening, and these Regulations shall then apply to that application. The provision of adequate and suitable landscaping or screening may be made a condition of any development permit where, in the opinion of the Authority, the landscaping or screening is desirable to preserve amenity or to protect the environment.

### **38. Livestock Structures and Uses** - Where permitted, no structure designed to contain more than five *animal units* (See No. 8, *Schedule A: Definitions*) shall be erected or used unless it complies with the following requirements:

- (1) The structure shall be at least 600m from a residence, (except a farm residence or a residence which is a non-conforming use in any zone where agriculture is a permitted use class in the Use Zone Tables in Schedule C of these Regulations), and, from a Provincial or Federal Park.
- (2) The structure shall be at least 60m from the boundary of the property on which it is to be erected.
- (3) The structure shall be at least 90m from the centre line of a street.
- (4) The erection of the structure shall be approved by the Department of Natural Resources (Agrifoods Branch) and the Department of Environment and Conservation.

No development for residential uses shall be permitted within 600m of an existing structure designed to contain more than five animal units unless the development is first approved by the Department of Natural Resources.

**39. Lot Area**

- (1) No lot shall be reduced in area, either by the conveyance or alienation of any portion thereof or otherwise, so that any building or structure on such lot shall have a lot coverage that exceeds, or a front yard, rear-yard, side-yard, frontage or lot area that is less than that permitted by these Regulations for the zone in which such lot is located.
- (2) Where any part of a lot is required by these Regulations to be reserved as a yard, it shall continue to be so used regardless of any change in the ownership of the lot or any part thereof, and shall not be deemed to form part of an adjacent lot for the purpose of computing the area thereof available for building purposes.

**40. Lot Area and Size Exceptions** - Where, at the time of coming into effect of these Regulations, one or more lots already exist in any residential zone with insufficient frontage or area to permit the owner or purchaser of such a lot or lots to comply with the provisions of these Regulations, then these Regulations shall not prevent the issuing of a permit by the Authority for the erection of a dwelling thereon, provided that the lot coverage and height are not greater than, and the yards and floor area are not less than the standards set out in these Regulations.

**41. Lot Frontage** – Except for accessory buildings, and notwithstanding Municipal Plan Policy R-9, no building shall be erected unless the lot on which it is situated fronts directly onto a street which has been constructed to standards established by the Authority.

**42. Mineral Exploration** - Where permitted, mineral exploration activities shall meet the following conditions:

- (1) The planned activities do not cause undue noise, significant ground disturbance or risks to the safety of residents of Peterview;
- (2) A plan to consult with and inform residents of the activity is submitted and approved by the Authority;
- (3) All permits and approvals from federal and provincial agencies, including the Department of Natural Resources, Mines and Energy, have to be obtained;
- (4) A site rehabilitation plan is submitted and approved by Council for exploration activities, which require trenching and/or the creation of cut lines through wooded areas, or other forms of ground disturbance;
- (5) A refundable cash deposit of \$1,000.00 has been made to the Authority which shall be returned when the rehabilitation work has been completed in

accordance with the development permit and to the satisfaction of the Authority.

- 43. Multiple Uses** - In any use zone where any land or building is used for more than one use, each use shall be required to meet the provisions of these regulations. Where there is a conflict such as in the case of lot size or lot frontage, the higher or more stringent standard shall prevail.
- 44. Municipal Public Works and Utilities** - The Authority shall ensure that municipal and public utility works such as telephone, water treatment, pollution control and electric utility facilities are constructed so that no adverse effect on adjacent land uses is created. In this regard, the size and appearance of such works shall be in keeping with adjacent uses and buffering, in the form of landscaped areas between any such works and adjacent uses is required.
- 45. Non-Conforming Uses** - Applications involving non-conforming uses shall be processed in accordance with **Section 108 of the *Urban and Rural Planning Act*** and Sections 14 of Part I of these Regulations. If a non-conforming uses ceases to exist for a period of more than six months, new uses for the property and any buildings must conform to the requirements of the land use zone in which it is located.
- 46. Offensive and Dangerous Uses** - No building or land shall be used for any purpose which may be dangerous by causing or promoting fires or other hazards or which may emit noxious, offensive or dangerous fumes, smoke, gases, radiation, smells, ash, dust or grit, excessive noise or vibration, or create any nuisance that has an unpleasant effect on the senses unless its use is authorized by the Authority and any other authority having jurisdiction.
- 47. Off-Street Loading Requirements**
- (1) For every building, structure or use to be erected, enlarged or established requiring the shipping, loading or unloading of goods, wares or merchandise, there shall be provided and maintained for the premises loading facilities on land that is not part of a street comprised of one or more loading spaces, 15m long, 4m wide and having a vertical clearance of at least 4m with direct access to a street or with access by a driveway of a minimum width of 6m to a street.
  - (2) The number of loading spaces to be provided shall be determined by the Authority.
  - (3) The loading facilities required by this Regulation shall be so arranged that vehicles can move clear of any street and so that it is not necessary for any vehicle to reverse onto or from a street.

#### **48. Off-street Parking Requirements**

- (1) For every building, structure or use to be erected, enlarged or established, there shall be provided and maintained a quantity of off-street parking spaces sufficient to ensure that the flow of traffic on adjacent streets is not impeded by the on-street parking of vehicles associated with that building, structure or use.
- (2) The number of parking spaces to be provided for any building, structure, use or occupancy shall conform to the standards set out in Schedule D of these Regulations.
- (3) Each parking area, except in the case of one or two-family dwellings, shall be made accessible by means of a hard surfaced right-of-way at least 3m in width. Parking required in a Residential Zone shall be provided on the same lot as the dwelling or dwellings. Parking spaces for apartments should be provided in the rear-yard, where possible. In a Non-residential Zone, parking areas shall be provided within the limits of the zone in which the use is situated and not more than 200m distant from the use concerned.
- (4) Parking areas required by this Regulation shall, except in the case of single or attached dwellings, be arranged so that it is not necessary for any vehicle to reverse onto or from a street.
- (5) Where, in these Regulations, parking areas for more than four vehicles are required or permitted:
  - (a) Parking space shall mean an area of land, not less than 15m<sup>2</sup> in size, capable of being used for the parking of a vehicle without the need to move other vehicles on adjacent areas;
  - (b) The parking area shall be constructed with a stable surface that is treated to prevent the rising of dust or loose particles;
  - (c) The lights used for illumination of the parking area shall be so arranged as to divert the light away from adjacent development;
  - (d) A structure, not more than 3m in height and more than 5m<sup>2</sup> in area may be erected in the parking area for the use of attendants in the area;
  - (e) No part of any off-street parking area shall be closer than 1.5m to the front lot line in any zone;
  - (f) Access to parking areas in non-residential zones shall not be by way of residential zones;
  - (g) Where a parking area is in or abuts a residential zone, a natural or structural barrier at least 1m in height shall be erected and maintained along all lot lines;

- (h) Where, in the opinion of the Authority, strict application of the above parking requirements is impractical or undesirable, the Authority may, as a condition of a permit, require the developer to pay a service levy in accordance with these Regulations in lieu of the provision of a parking area, and the full amount of the levy charged shall be used by the Authority for the provision and upkeep of alternative parking facilities within the general vicinity of the development;
- (i) Entrance and exit ramps shall be no closer than 15m from any corner or street intersection;
- (j) Parking standards to accommodate persons with disabilities shall meet the requirement of the *Buildings Accessibility Act and Regulations*;
- (k) Landscaping shall be provided on 5% of the parking area for lots less than 1,400m<sup>2</sup> in size, and 7.5% of the parking area for lots greater than 1,400m<sup>2</sup>.

**49. Outdoor Storage** - Outdoor storage will not be permitted in front yards. Outdoor storage may be permitted in side-yards and/or rear-yards. Council may require fencing or other forms of screening where quantity and/or type of material would lead to unsightly appearance.

**50. Outdoor Swimming Pools** - Where a swimming pool is an accessory use to a residential or commercial use, it shall:

- (1) Be enclosed by a fence having a minimum height of 1.8 metres (6ft) from the established grade and located a minimum of 1.8 metres from the water surface perimeter, and have a gate, equipped with self-closing; self-latching devices placed at the top and on the inside of the gate;
- (2) Not exceed 7.0% of the area of the lot;
- (3) Not encroach upon any easement;
- (4) Not be placed over any existing, on-site septic system.

**51. Parks and Playgrounds, and Conservation Uses** - Nothing in these Regulations shall prevent the designation of conservation areas or the establishment of parks and playgrounds in any zone provided that such parks and playgrounds are not located in areas which may be hazardous to their use and are not operated for commercial purposes.

**52. Service Stations** - Where permitted, development of an automobile service station and garage shall conform to the following conditions:

- (1) All gasoline pumps shall be located on pump islands designed for such purpose;

- (2) Pump islands shall be set back at least 4 metres from the front lot line.
- (3) A canopy for sheltering pump islands may be erected provided that no part of the canopy is located within 3m of the street or lot line.
- (4) Accesses shall not be less than 7 metres wide and shall be clearly marked.
- (5) Where a service station is located on a corner lot, the centre line of any access shall be at least 15 metres from the center line of the junction.

(6)

- 53. **Side-yards** – Side-yards shall be kept clear of obstruction and shall be provided on the exposed sides of every building in order to provide access for the maintenance of that building.
- 54. **Soils and Drainage** - Development shall only be permitted on lands having soil and drainage conditions that are suitable to permit the proper siting and development of the proposed uses.
- 55. **Soil Removal and Deposit and Site Grading** - A development permit is not required for removal or deposit of soil, or the excavation and removal of excavated material or grading, if it is part of an approved development project or affects less than 125 cubic metres of soil, sand, gravel, rock or other substance, down to and including bedrock. All other cut or fill work, excavation, removal and deposit of material or grading requires a development permit under these Regulations.
- 56. **Storage and Screening of Refuse Containers** - Refuse containers used for the collection or storage wastes from a commercial use shall be screened by fence or similar structure.
- 57. **Storage of Flammable Liquids** - All uses and structures for the on-site bulk storage of flammable liquids shall conform to the requirements of the Provincial Fire Commissioner and shall be surrounded by such buffers and landscaping as the authority may require in order to prevent damage to adjacent uses by fire, explosion or spillage of flammable liquid or other dangerous goods.
- 58. **Subsidiary Apartments** - Where permitted, subsidiary apartments shall be limited to single dwellings. Two off-street parking spaces in addition to those required for the dwelling are required. Minimum floor area is 40 m<sup>2</sup> for one bedroom, plus 10 m<sup>2</sup> for each additional bedroom.

- 59. Water Course Protection Buffers** - In accordance with the Peterview Municipal Plan, Policy G5 - Protection of Water Bodies - any proposed development or land use activity adjacent to a stream, pond, coastline, or wetland will be required to retain a natural buffer where no removal or disturbance of vegetation or alteration of topography will be permitted as follows:

Type of Waterbody	Required Buffer
Marine coastline	100m measured from the top of the bank or high water mark whichever is greater
Stream, pond or wetland visible on a 1:50,000 topographic map	25m from the high water mark
Minor stream or drainage channels not showing on a 1:50,000 topographic map	15m unless approved by the Department of Environment and Conservation under section 48 of the <i>Water Resources Act</i>

- 60. Water Pressures/Fire Flows** - Development may be refused where water pressures and fire flows cannot be guaranteed.

## PART IV – SIGNS

**61. Purpose** - Signage provisions are multi-purpose and are meant to meet a range of community residential and business needs and concerns including the following:

- (1) Ensure that businesses, services, and other enterprises can effectively communicate to the public by the use of signs;
- (2) Provide for reasonable, orderly and effective display of outdoor advertising compatible with their surroundings;
- (3) Protect pedestrians and motorists from hazardous conditions that result from signs that are located improperly, structurally unsafe or obscure vision;
- (4) Preserve, protect and enhance the economic, scenic, historic and aesthetic values and objectives of the Community; and
- (5) Protect the quality of life and financial interests of homeowners from excessive signage of home based businesses that could have a negative impact on adjacent residents.

**62. Definitions and Illustrations** – the following definitions and illustrations shall apply to signs:

**Sign** - means a word, letter, model, placard, board, device or representation, whether illuminated or not, in the nature of or employed wholly or in part for the purpose of advertisement, announcement or direction and excludes those things employed wholly as a memorial, advertisements of local government, utilities, and boarding or similar structures used for the display of advertisements.

**Canopy/Awning Sign** means a sign that has a structure of rigid or non-rigid material on a framework sheltering an area or forming a sheltered walk.

**Flush Mounted Wall Sign** means a sign attached directly to a building wall, where the sign face is parallel to the wall of the building to which it is attached.

**Ground Sign** means a sign supported by one or more uprights, placed permanently in the ground.

**Group Sign** means a ground sign on which more than one activity, business, organization, enterprise, industry or service is being advertised.

**Illuminated Sign** means a sign that emits artificial light or is illuminated by a light focused upon, or chiefly directed at, the surface of the sign.

**Multi-faced Sign** means a sign that has more than two sign faces and shall be considered to be one sign.

**Mural Sign** means a large image, such as a painting or enlarged photograph, applied directly to a wall or ceiling.

**Portable Sign** means a sign designed to be mobile and not located permanently in a fixed location.

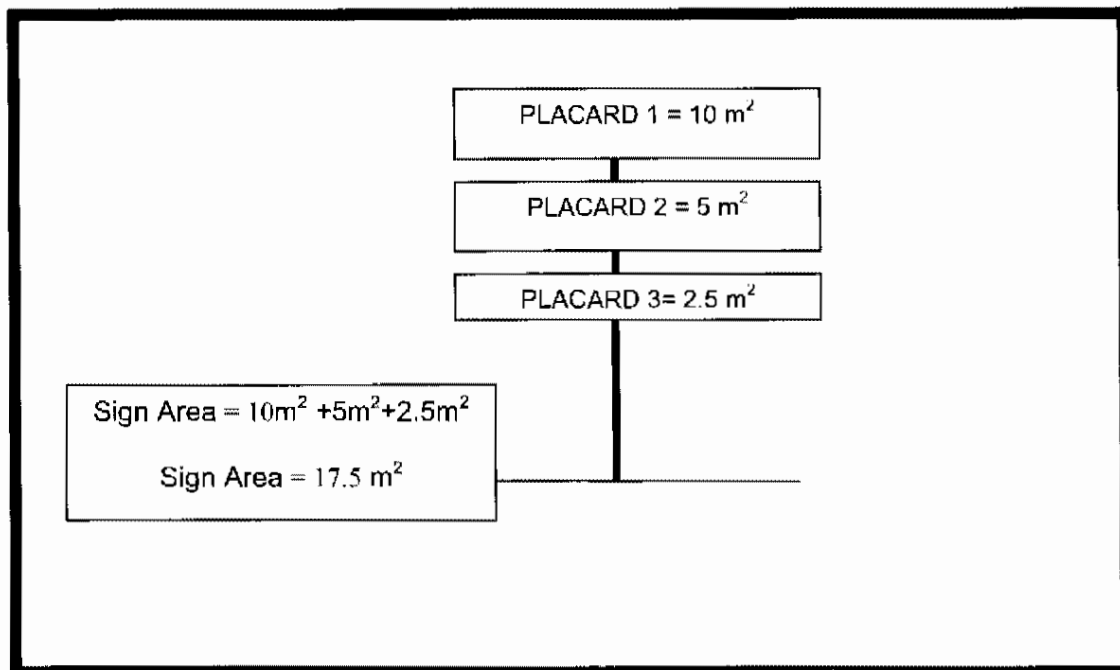

**Projecting/Hanging Sign** means any sign that is wholly or partly dependent upon a building for support and projects from the wall or face of a building or structure.

**Roof Sign** means a sign fixed, placed upon or supported by the roof of a building.

**Sign Area** means the area of the smallest rectangle, circle, or semi-circle that can enclose the surface area of the sign. Where a sign has two faces or more, the maximum area is permitted for each of the two faces.

**Window Sign** means a sign placed on or inside a window that faces outward and is intended to be seen from the outside.

**Example of Calculation of Sign Area**

- 63. Permit Required** - Subject to provisions of Regulation 67, no sign shall be erected or displayed in the Planning Area unless a permit for the sign is first obtained from the Authority.
- 64. Provincial Highway Sign Regulations** - All signs or advertisements to be erected within the boundaries of the Town of Peterview must be approved in accordance with these Regulations. Where provisions of the Town of Peterview Development Regulations are inconsistent with the regulations respecting advertising signs on or near public highways made or administered by provincial departments under the *Provincial Highway Sign Regulations*, the more restrictive regulations shall apply.
- 65. Form of Application** - Application for a permit to erect or display a sign shall be made to the Authority in accordance with Regulation 7.
- 66. Signs Prohibited in Street Reservation** – Unless otherwise permitted by these or other regulations (Highway Sign Regulations, Provincial Highway Signs for example), no sign shall be permitted to be erected or displayed within, on or over any highway or street reservation.
- 67. Permit Valid for Limited Period** - A permit granted under these Regulations for the erection or display of a sign shall be for a period not exceeding two years, but may be renewed at the discretion of the Authority for similar periods.
- 68. Removal of Signs** - Notwithstanding the provisions of these Regulations, the Authority may require the removal of any sign which, in its opinion, is:
- (1) Hazardous to road traffic by reason of its siting, colour, illumination, or structural condition, or;
  - (2) Detrimental to the amenities of the surrounding area.

**69. Signs Exempt from Control** - The following signs may be erected or displayed in the Planning Area without application to the Authority:

- (1) On a dwelling or within the courtyard of a dwelling, one nameplate not exceeding 0.2m<sup>2</sup> in area;
- (2) On an agricultural holding or farm, a notice board not exceeding 1m<sup>2</sup> in area and relating to the operations being conducted on the land;
- (3) On any site occupied by a church, school, library, art gallery, museum, institution or cemetery, one notice board not exceeding 1m<sup>2</sup> in area;

  - (g) Any signs not listed in Regulation 72(1).
- (3) **Off-site Directional Signs** - Off-site directional signs shall only be permitted where they are part of a sign kiosk constructed and managed by the Town.

### **73. General Standards for Signs**

- (1) All signs must be located on the property where the person/activity/business being advertised is located unless otherwise permitted in these Regulations.
- (2) Signs in all zones must be maintained in good condition (e.g. no peeling paint, rotting wood, etc.) and not present a safety hazard in terms of structural stability.
- (3) No sign shall obstruct a means of ingress/egress from a door, window or fire escape.
- (4) Signs shall be professionally prepared and comply with standards as may be prescribed by the Authority.

## **PART V – SUBDIVISION OF LAND**

- 74. Permit Required** - No land in the Planning Area shall be subdivided unless a permit for the development of the subdivision is first obtained from the Authority.
- 75. Services to be Provided** - No permit shall be issued for the development of a subdivision unless provisions satisfactory to the Authority have been made in the application for a supply of drinking water, a properly designed sewage disposal system, and a properly designed storm drainage system.
- 76. Payment of Service Levies and Other Charges** - No permit shall be issued for the development of a subdivision until agreement has been reached for the payment of all fees levied by the Authority for connection to services, utilities and streets deemed necessary for the proper development of the subdivision, and all service levies and other charges imposed under Regulations 17 and 18.
- 77. Issue of Permit Subject to Considerations** - A permit shall not be issued when, in the opinion of the Authority, the development of a subdivision does not contribute to the orderly growth of the municipality and does not demonstrate sound design principles. In considering an application, the Authority shall, without limiting the generality of the foregoing, consider:
- (1) The location of the land;
  - (2) The availability of, and the demand created for, schools, services and utilities;
  - (3) The provisions of the Plan and Regulations affecting the site;
  - (4) The land use, physical form and character of adjacent developments;
  - (5) The transportation network and traffic densities affecting the site;
  - (6) The relationship of the project to existing or potential sources of nuisance;
  - (7) Soil and subsoil characteristics;
  - (8) The topography of the site and its drainage;
  - (9) Natural features such as lakes, streams, topsoil, trees and shrubs;
  - (10) Prevailing winds;
  - (11) Visual quality;
  - (12) Community facilities;

(13) Energy conservation;

(14) Such other matters as may affect the proposed development.

**78. Proposals for Subdivision of Land** - Proposals for the subdivision of lands for residential, commercial and industrial development shall be required to provide information on:

- (1) The physical features of the site, including development opportunities and constraints, the location of mature stands of vegetation, including any vegetation to be retained.
- (2) The layout of proposed lots and streets.
- (3) How the proposed subdivision relates to existing development and roads on adjacent lands, and provide for future access to undeveloped lands in the area.
- (4) The compatibility between the subdivision and surrounding land uses, both existing and future.
- (5) The volume and type of traffic that will be generated by the development.
- (6) Proposed servicing, including water and sewer, storm water management, and utilities from the main street and not from other connections on the lot.
- (7) In residential subdivisions, the locations of neighbourhood mail receptacles.
- (8) A landscaping plan which shows the location of dedicated open space and plantings.

**79. Form of Application** - Application for a permit to develop a subdivision shall be made to the Authority in accordance with Regulation 7.

**80. Subdivision Subject to Zoning** - The subdivision of land shall be permitted only in conformity with the Use Zones delineated on the Zoning Maps.

**81. Building Lines** - The Authority may establish building lines for any subdivision street and require any new building to be located on such building lines.

## **82. Land for Public Open Space**

- (1) Before a development commences, the developer shall, if required, dedicate to the Authority, at no cost to the Authority, an area of land equivalent to not more than 10% of the gross area of the subdivision for public open space, provided that:
  - (a) Where land is subdivided for any purpose other than residential use, the Authority shall determine the percentage of land to be dedicated;
  - (b) If, in the opinion of the Authority, no public open space is required, the land may be used for such other public use as the Authority may determine;
  - (c) The location and suitability of any land dedicated under the provisions of this Regulation shall be subject to the approval of the Authority, but in any case, the Authority shall not accept land which, in its opinion, is incapable of development for any purpose;
  - (d) The Authority may accept from the developer, in lieu of such area or areas of land, the payment of a sum of money equal to the value of the land which would otherwise be required to be dedicated;
  - (e) Money received by the Authority in accordance with Regulation 78(1)(d) shall be reserved by the Authority for the purpose of the acquisition or development of land for public open space or other public purpose.
- (2) Land dedicated for public use in accordance with this Regulation shall be conveyed to the Authority and may be sold or leased by the Authority for the purposes of any development that conforms with the requirements of these Regulations, and the proceeds of any sale or other disposition of land shall be applied against the cost of acquisition or development of any other land for the purposes of public open space or other public purposes.
- (3) The authority may require a strip of land to be reserved and remain undeveloped along the banks of any river, brook or pond, and this land may, at the discretion of the Authority, constitute the requirement of land for public use under Regulation 82(1).

**83. Structure in Street Reservation** - The placing within any street reservation of any structure, for example, a hydro pole, telegraph or telephone pole, fire hydrant, mail box, fire alarm, sign post) shall receive the prior approval of the Authority which shall be satisfied on the question of safe construction and relationship to the adjoining buildings and other structures within the street reservation.

**84. Development Agreement** - As a condition of approval for new developments, the Authority shall require a developer to enter into an agreement with the Municipality. Such agreements will be negotiated between the developer and the Municipality for financing and development of services provided to the site. The agreement shall include specifications for water and sewer infrastructure, storm drainage, streets, sidewalks, open space, as well as school bus stops and neighbourhood mailboxes, where required.

**85. Subdivision Design Standards** - No permit shall be issued for the development of a subdivision unless the design of the subdivision conforms to the following standards;

- (1) The finished grade of streets shall not exceed 10 percent.
- (2) Every cul de sac shall be provided with a turning circle of a diameter not less than 30m.
- (3) The maximum length of any cul de sac shall be
  - (a) 110m - without emergency vehicle access
  - (b) 230m - with emergency vehicle access
- (4) Emergency vehicle access to a cul de sac shall be not less than 3m wide and shall connect the head of the cul de sac with an adjacent street.
- (5) No cul de sac shall be located so as to appear to terminate a collector street.
- (6) New subdivisions shall have street connections with an existing street or streets.
- (7) All street intersections shall be constructed within 5° of a right angle and this alignment shall be maintained for 30m from the intersection.
- (8) No street intersection shall be closer than 60m to any other street intersection.
- (9) No more than four streets shall join at any street intersection.
- (10) No residential street block shall be longer than 490m between street intersections.
- (11) Streets in residential subdivisions shall be designed in accordance with the approved standards of the Authority, but in the absence of such standards, shall conform to the following minimum standards:

Type of Street	Street Reservation	Pavement Width	Sidewalk Width	Sidewalk Number
Collector Streets	20m	15m	1.5m	2
Local Residential Streets	15m	9m	1.5m	1

- (12) No lot intended for residential purposes shall have a depth exceeding four times the frontage.
- (13) Residential lots shall not be permitted which abut a local street at both front and rear lot lines.
- (14) The Authority may require any existing natural, historical or architectural feature or part thereof to be retained when a subdivision is developed.
- (15) Land shall not be subdivided in such a manner as to prejudice the development of adjoining land.

#### **86. Engineer to Design Works and Certify Construction Layout**

- (1) Plans and specification for all water mains, hydrants, sanitary sewers, storm sewers and all appurtenances thereto and all streets, paving, curbs, gutters and catch basins and all other utilities deemed necessary by the Authority to service the area proposed to be developed or subdivided shall be designed and prepared by or approved by the Engineer. Such designs and specifications shall, upon approval by the Authority, be incorporated in the plan of subdivision.
- (2) Upon approval by the Authority of the proposed subdivision, the Engineer shall certify all work of construction layout preliminary to the construction of the works and thereupon the developer shall proceed to the construction and installation, at his or her own cost and in accordance with the approved designs and specifications and the construction layout certified by the Engineer, of all such water mains, hydrants, sanitary sewers and all appurtenances and of all such streets and other works deemed necessary by Authority to service the said area.

**87. Developer to Pay Engineer's Fees and Charges** - The developer shall pay to the Authority all the Engineer's fees and charges for the preparation of designs and specifications and for the layout and supervision of construction; such fees and charges being percentages of the total cost of materials and labour for the construction and installation of all works calculated in accordance with the Schedule of Fees recommended by the Association of Professional Engineers of Newfoundland and in effect at the time the work is carried out.

**88. Street Works May Be Deferred** - The construction and installation of all curbs and gutters, catch basins, sidewalks and paving specified by the Authority may be deferred until a later stage of the work on the development. Prior to approval, the developer shall deposit with the Authority, an amount estimated by the Engineer as sufficient to cover construction and installation costs. In the later stage of the work of development, the Authority shall call for tenders for construction and installation of the works, and the amount so deposited by the developer shall be applied towards payment of the contract cost. If the contract cost exceeds the deposit, the developer shall pay to the Authority the amount of the excess. If the contract price is less than the deposit, the authority shall refund the amount by which the deposit exceeds the contract price. Any amount so deposited with the Authority by the developer shall be placed in a separate savings account in a bank and all interest earned shall be credited to the developer.

**89. Transfer of Streets and Utilities to the Authority**

- (1) Where required by the terms of a Subdivision Agreement, the developer shall, following the approval of the subdivision of land and upon request of the Authority, transfer to the authority, at no cost to the Authority, and clear of all liens and encumbrances:
  - (a) All lands in the area proposed to be developed or subdivided which are approved and designated by the Authority for public uses as streets, or rights-of-way, or for other public use;
  - (b) All services or public works including streets, water supply and distribution and sanitary and storm drainage systems installed in the subdivision that are normally owned and operated by the Authority.
- (2) Before the Authority shall accept the transfer of lands, services or public works of any subdivision, the Engineer shall, at the cost to the developer, test the streets, services and public works installed in the subdivision and certify his or her satisfaction with their installation.
- (3) The Authority shall not provide maintenance for any street, service or public work in any subdivision until such time as such street, service or public work has been transferred to and accepted by the Authority.

**90. Restriction on Sale of Lots** - The developer shall not develop or dispose of any lot within a subdivision for the purposes of development and no building permit shall be issued until the authority is satisfied that:

- (1) The lot can be served with satisfactory water supply and sewage disposal systems, and;
- (2) Satisfactory access to a street is provided for the lots.

## **PART VI – USE ZONES**

### **91. Use Zones**

- (1) For the purpose of these Regulations, the Planning Area is divided into Use Zones which are shown on the Zoning Map attached to and forming part of these Regulations.
- (2) Subject to Regulation 91 (3), the permitted and discretionary use classes, standards, requirements and conditions applicable to each Use Zone are set out in the Use Zone Tables in Schedule C of these Regulations.
- (3) Where standards, requirements and conditions applicable in a Use Zone are not set out in the Use Zone Tables in Schedule C, the Authority may in its discretion, determine the standards, requirements and conditions which shall apply.

**92. Use Classes** - The specific uses to be included in each Use Class set out in the Use Zone Tables in Schedule C shall be determined by the Authority in accordance with the classification and examples set out in Schedule B.

**93. Permitted Uses** - Subject to these Regulations, the uses that fall within the permitted Use Classes set out in the appropriate Use Zone Table in Schedule C shall be permitted by the Authority in that Use Zone.

**94. Discretionary Uses** - Subject to these Regulations, the uses that fall within the Discretionary Use Classes set out in the appropriate Use Zone Table in Schedule C may be permitted in that Use Zone if the Authority is satisfied that the development would not be contrary to the general intent and purpose of these Regulations, the Municipal Plan, or any further scheme or plan or regulation pursuant thereto, and to the public interest, and if the Authority has given notice of the application in accordance with Regulation 12 and has considered any objections or representations which may have been received on the matter.

**95. Prohibited Uses** - Uses that do not fall within the Permitted or Discretionary Use Classes, or are specifically listed as a Prohibited Use in the appropriate Use Zones Tables in Schedule C, shall not be permitted in that Use Zone.

### Conditions

<b>1. Mixed Development Standards</b>	<b>Standard (metres)</b>
Building Line Setback (m) (minimum)	8
Sideyard Width (m) (minimum)	5
Rearyard Depth (m)(minimum)	10
Building Height (m) (max)	10
Residential development shall conform to the standards set out in the Residential Use Zone	

- 2. Abutting Zone Provisions** - Where a lot within the Mixed Development zone abuts a lot in the Residential zone, the following standards shall apply to proposals for non-residential uses:
- (1) The minimum setback of the commercial use from the abutting lot line shall be 10m.
  - (2) No open storage or outdoor display shall be permitted in an abutting yard in the commercial use zone.

- (3) No portion of a parking space within the Mixed Development Use Zone shall be permitted in any abutting yard except where a 2m high fence is provided in which case there shall be no parking within 1.5m of the side or rear lot line in the residential zone.
3. **Buffer for Residential Uses** - Where a proposed non-residential use abuts a residential use within the Mixed Development Use Zone, Council may require a screen or barrier such as a fence, landscaped embankment, or trees to be erected on the non-residential site along the lot lines, consistent with the visibility requirements for traffic safety. Alternatively, Council may increase the sideyard and rear yard requirements on the non-residential site to provide additional separation from abutting residential use.
4. **Catering** - Restaurants, bars, lounges and take-out food services may be permitted at the discretion of Council.
5. **Commercial Residential** - Commercial residential uses shall be limited to accommodations for use by the traveling public.
6. **Home Occupations** - Medical and Professional Services, Personal Service, and Light Industry uses may be permitted as home occupations where they can meet the requirements of Regulation 36, Part III of these Regulations. The following use classes shall be restricted to the category of home occupation activities and may only be permitted on a developed residential lot:
- (1) **Light Industry Use Class** - The Light Industry Use Class shall be limited to the manufacture and ancillary retail sales of goods produced or repaired on the residential lot and shall be limited to those commonly associated with small-scale production of specialty goods or foods.
- (2) **Medical, Professional and Personal Service Uses** - Medical, Professional and Personal Service Uses may be permitted as a discretionary use in the form of medical clinics, offices or similar uses if the use is clearly subsidiary to the residential use.
- (3) **Home Offices** - A home office will be permitted in a dwelling unit where it conforms to the following requirements:
- a) It does not exceed 45m<sup>2</sup> in floor area;
  - b) There is no exterior open storage or display of goods, materials or equipment;
  - c) It must be operated by a resident of the dwelling unit and non-residents shall not be employed in the Home Office;
  - d) No change in the type, class or extent of the Home Office shall be permitted except with the approval of the Authority
7. **Light Industry** - Light Industrial uses shall be limited to custom workshops, small scale manufacturing and ancillary retail sales of good produced or repaired on site.

Refer to **Peterview Municipal Plan**, Section 3.4 General Land Use Policies, and Section 4.4.2 Open Space Policies.

### Conditions

- 1. Land Unsuitable for Development** - Land which is unsuitable for development due to slopes, and proximity to shorelines shall be retained in its natural state.
- 2. Docks, Slips and Wharves** - Docks, Slips and Wharves may be permitted along the marine shoreline where it can be shown that the development will not have a negative impact on the environment or reduce or harm fish and waterfowl habitat. Such development will require a referral to the Department of Fisheries and Oceans and the Water Resources Management Division, Department of Environment and Conservation.

Refer to **Peterview Municipal Plan**, Section 3.4 General Land Use Policies, and Section 4.5.2 Rural Policies.

### Conditions

1. **Development Standards** - The development standards for this zone shall be determined by Council and shall conform to any requirements of government departments and agencies. Development standards of other zones shall be used as guidelines.
2. **General Industry or Assembly Uses**
  - (1) General Industrial uses may be permitted in the form of maintenance and repair of equipment, processing and storage related to agriculture, forestry or mineral working uses.
  - (2) A General Industry or Assembly Use may be permitted if it meets the following criteria:
    - (a) The use is unsuitable for location near urban development because it interferes with the amenity and use of adjacent lands by reason of appearance, noise, vibration, smell, fumes, smoke, grit, soot ash, dust or glare; or
    - (b) The use is a general industry activities which require large area for open storage and handling of materials, goods and equipment and whose buildings are accessory to the open storage and handling; or
    - (c) Is a large scale Assembly Class uses; and
    - (d) The use is capable of being serviced by on-site water supply and sanitary sewage disposal;

- (e) The use is capable of being screened from public roads and lands designated for urban uses;
- (f) The use generates low volumes of traffic; and
- (g) The use is capable of operations with no deleterious effect on the environment including quality of water in any stream, pond or bog.

**3. Mineral Workings** - The conditions for mineral workings in the Rural Land Use Zone are:

- (1) **Separation from Adjacent Uses** - No mineral working shall be in general view of urban development or scenic areas. Mineral workings must also conform with the minimum distances from other development as set out below, unless after consulting appropriate government departments, Council is satisfied that the use will no create a nuisance and will not adversely affect the amenity of the specified development or natural feature:

Adjacent Land Use	Minimum Separation Distance
Any other developed area or area likely to be developed during the life of the pit or quarry working	300m
Public street or highway	50m
Waterbody or watercourse	30m
Explosive blasting related to aggregate extraction activities shall not be permitted within 1,000 metres of an area in which residential development is permitted.	

- (2) **Screening** - A mineral working shall be screened in the following manner where it is visible from a public street or highway, developed area, or area likely to be developed during the life of the working:
  - (a) Where tree screens exist between the mineral working and adjacent public streets or other land uses, the tree screens shall be retained in a 30m wide strip of vegetation so that visibility of any part of the use from the surrounding uses is prevented. Tree screens must be maintained by the owner of the mineral working. Where vegetation dies or is removed from the 30m strip, the Authority may require new trees be planted to fill in the area affected.
  - (b) Where no tree screens exist of sufficient width and density to constitute a visual screen, earthen berms shall be constructed to a height sufficient to prevent visibility of any part of the mineral working adjacent uses.
  - (c) Where natural topography creates a visual screen between mineral workings and adjacent public highways and streets or other land uses, additional screening may not be required.
  - (d) Where effective screening for any mineral working or associated processing or manufacturing use cannot be installed or located as a

required in (b)-(c) above, the Authority may refuse to permit the mineral working or associated activity.

- (3) **Fencing** - The Authority may require the mineral working site or excavated areas of a pit or quarry to be enclosed by a fence designed and constructed to its specifications and no less than 1.8m in height.
- (4) **Water Pollution** - No mineral working or associated storm or sanitary drainage shall unacceptably reduce the quality of water in any waterbody or watercourse. Any access road to a pit and quarry working which crosses a brook or stream shall be bridged or culverted at the crossing in accordance with the regulations of the Department of Environment.
- (5) **Erosion Control** - No mineral working shall be carried out in a manner so as to cause erosion of adjacent land.
- (6) **Site Maintenance** - The mineral working shall be kept clean or refuse, abandoned equipment and any derelict buildings.
- (7) **Access Roads** - During extended periods of shutdown, access roads to a mineral working shall be ditched or barred to the satisfaction of the Authority.
- (8) **Stockpiling Cover Material** - All stumps, organic material and topsoil, including the rusty coloured and iron stained layer, shall be stripped and stockpiled at least 5m from the active quarry or stockpile areas. The owner or operator shall ensure that the quality of the topsoil is not affected by dilution with other materials.
- (9) **Operating Plant and Associated Processing and Manufacturing** - The Authority may permit processing and manufacturing use associated with mineral working provided that, in the opinion of the Authority, the use does not create a nuisance nor is liable to become a nuisance or offensive by the creation of noise or vibration, or by reason of the emission of fumes, dust, dirt, objectionable odour, or by reason of unsightly storage of materials.
- (10) **Future Extraction** - All permanent or temporary buildings, plants and structures associated with processing and manufacturing will be located so as not to interfere with the present or future extraction of aggregate resources.
- (11) **Termination and Site Rehabilitation** - Upon completion of the mineral working, the following work shall be carried out by the operation:
  - (a) All buildings, machinery and equipment shall be removed.
  - (b) All pit and quarry slopes shall be graded to slopes less than 20% or to the slope conforming to that existing prior to the mineral working.
  - (c) Topsoil and any organic materials shall be respread over the entire quarried area.

- (d) The access road to the working shall be ditched or barred to the satisfaction of the Authority.

If the mineral working contains reserves of material sufficient to support further extraction operations, the Authority may require the work described above to be carried out only in areas of the site where extraction has depleted aggregate reserves.

- 4. Office** - An office use may be permitted if it is part of and subsidiary to another permitted or discretionary use.

## **5. Scrap Yards**

- (1) **Fencing** - Council may require a scrap yard to be enclosed by a fence designed and constructed to its specifications and no less than 1.8m in height.
- (2) **Screening** - A scrap yard shall be screened in the following manner where it would be visible from a public street or highway, developed area or areas likely to be developed during the life of the use:
  - (a) Where tree screens exist between the use and adjacent public highways and streets or other land uses (except forestry and agriculture), the tree screen shall be retained in a 30m wide strip of vegetation so that visibility of any part of the use from the surrounding uses or streets will be prevented. The tree screens must be maintained by the owner or occupier of the use to retain 30m in a forested appearance. Where vegetation dies or is removed from the 30m strip, Council may require new trees of a minimum height of 1m be planted to fill in the areas affected to the satisfaction of Council.
  - (b) Where no tree screens exist of sufficient width and density to constitute a visual screen, earthen berms shall be constructed to a height sufficient to prevent visibility of any part of the use from adjacent uses (except forestry and agriculture), or adjacent public highways and streets. The berm shall be landscaped to Council's satisfaction.
  - (c) Where natural topography creates a visual screen between a scrap yard and adjacent public highways and streets or other land use (except forestry or agriculture), additional screening may not be required.
  - (d) Where effective screening for any scrap yard cannot be installed or located as required in (a)-(c) above, or where the site is highly visible from a distance, Council may refuse to permit the use or associated activity.
- (3) **Separation from Adjacent Uses** - Unless Council is satisfied that the use will not create a nuisance and will not adversely affect the amenity of the specified development or natural feature, no scrap yard or solid waste storage or disposal site shall be located closer than the minimum distances set out below to the specified development or natural feature:

<b>Adjacent Land Use</b>	<b>Minimum Separation Distance</b>
Existing or proposed residential development	300m
Other development or areas that may be developed during the life of the scrap yard	150m
Public street or highway	50m
Waterbody or watercourse	50m

**6. Single Dwelling** - A single dwelling shall be associated with and subsidiary to an agricultural use.

## SCHEDULE D - OFF-STREET PARKING REQUIREMENTS

1. Unless otherwise specified in the Use Zone Tables in Schedule C, the off-street parking requirements for uses in the various use classes listed in Schedule B shall be as set out in the following table.
2. In the case of developments including uses in more than one use class, these standards shall be regarded as cumulative.
3. Adequate off-street provision for drop-off and pick-up of persons shall be provided in developments where required, such as uses within the education, passenger assembly, child care, medical treatment and special care, commercial residential and take-out food service use classes.
